

Copyrighted 1920 By George Jay Bevier Schuyler And Martin Keller Mohler

OF TWENTY ONE

Foreword

SINCE the first L'AGENDA, published in 1888, Bucknell has risen to the present high place it occupies among the Universities of the East. Those who left their work here to answer the call of their country have returned, save those immortal heroes who will sleep forever on the sacred fields of France. A fund of a million and a half dollars is being raised for the improvement of the University, and plans are under way for the construction of a new and much needed engineering building. The very air and spirit of Bucknell indicates prosperity.

It has been the intention of the present L'AGENDA Board to view from every angle the activities of student life at Bucknell. We desire to make this a truly representative volume, which in the future, will serve to bring back fond memories of the pleasant times and fruitful years spent at the "School on the Hill". With the advancement of the University, we hope that each successive annual will be better than this, the L'AGENDA of the Class of Nineteen Twenty-one.

In honor of Emory W. Hunt, President of Bucknell University, in appreciation of his efforts to constantly raise the standards of the University, we dedicate this book, the Nineteen Twentyone L'Agenda

DR EMORY W HUNT President of Bucknell University

THE president of a university to a greater degree than any other person connected with it, if he wishes to accomplish the highest purpose his position offers, comes in closest touch with the Faculty, Students, Alumni, and Friends. These all may be—and they ought to be—summoned to help in his grand design of laying broad and deep the foundations of the institution and of extending its reputation throughout the country and the world. The ability and the disposition to rally these four helpers are not given to all who sit in presidential chairs. The energy required is often too great; the adaptability too rare; the interest in the matter, too feeble; the vision, too dim and narrow.

Our new President, in the short time he has been in charge, has shown that he is determined to meet, if not to surpass, our great expectations. To the Faculty he is appreciative, cordial, sympathetic; to the Students he is accessible, patient, sympathetic; to the Alumni he is brotherly, deferential, zealous; to the Friends he is attractive, enthusiastic, inspiring. With him in the lead, all the forces that ought to work as one man for the good of Bucknell have already begun to move forward in many directions; and a result, greater than that accomplished in the past, looms clear and large in the present, to be fully realized, no doubt, in the not-distant future.

It is no easy task for one who is not an Alumnus to grasp quickly and successfully the complex interests of an institution and marshal them harmoniously to the work in hand. This can be done only when to the *fortiter in re* there is joined the *suaviter in modo*, for both of which the new President was distinguished long before he came hither. Some good angel led by kindly stars brought to us as President, Dr. Emory W. Hunt; and now, when there is no cloud in the sky and not a flutter of doubt in the heart, let all—Faculty, Students, Alumni, Friends—continue to meet him, as they have already given many signs of doing, with a whole-hearted and lasting WELCOME.

In Memoriam

NEVIN AMOS WEISNER

Wherras: the Great and Supreme Ruler of the Universe, in His infinite wisdom, has removed from our midst our late and faithful classmate, Nevin Amos Weisner.

Therras: we bow our hearts in humble submission to the will of our Heavenly Father, Who is just in all things; and while we mourn the loss of our classmate, we know that our loss is his eternal gain. Therefore, be it hereby

Bresilved: that we, the members of the Class of 1921 of Bucknell University, dedicate a page in our L'AGENDA to the eternal memory of Nevin Amos Weisner, as a poor tribute to a classmate who has gone to his final resting place.

SENIORS

Senior Class Poem

How well do we remember the day we came to college,

A band of little Freshies, all in pursuit of knowledge;

Nineteen-Twenty's aims were high,

We wished to soar up to the sky.

The next year found us Sophomores—our Springtime had slipped by—And with it, Freshies' caps and rules and all green things did fly;

Nineteen-Twenty worked for fame,

Which we hoped to get in deed and name.

Junior year brought dignity, more work, and broader view,

And as we finished every task, we looked for more to do;

Nineteen-Twenty found delight

In striving upward, doing right.

Our Senior year has come at last; we hope we've gained some knowledge,

And it will be with much regret that we must leave our college;

Nineteen-Twenty soon bids farewell

To happy life in old Bucknell.

Amen.

Senior Class History

THE fall of 1916 witnessed the enrollment of a class which was destined to become great and known the world over. Passing through the trials and troubles of our under-classmen years, we emerged broadened and elevated to the plane of the Junior. The war took away some of our best men, but the close of the struggle brought others back who almost made up for our losses. We now stand on the threshold, ready to step forth into the world and do battle to make a name for the Class of 1920.

Our term in college has seen the outbreak and close of the mightiest war in history, in which many of our men served their country. Those who returned, found that the college was taking a great part in the reconstruction of the nation, and that plans were on foot to make Bucknell bigger and better in the future. To these plans we have given our approval, and have pledged ourselves to help, in our small way, the advancement of the Institution. Bucknell is first in our hearts, and we will put our shoulders to the wheel for her gain and glory.

It is almost time for us to say farewell to the "College on the Hill." We will ever remember the good days we have spent in her shadow, and when we are out in the broad stream of life, we will earnestly strive to bring honor and credit to the Class of 1920, and Old Bucknell.

JUNI0R5

Junior Class Poem

Dawn opened wide her eyes
From out the brightness of the eastern skies,
And lo, from far and near on every hand
A crowd of youths and maids, a merry band
Trying to do with all their might
Everything possible, just about right
Thus,—our Freshman year.

Noon, confident of all her powers, appears Self-satisfied and bold, she has no fears Tho' we in number were up to par, So in virtuous deeds we excelled all by far But one great lesson we learned just then, That of serving our fellow men And so,—our Sophomore year.

Afternoon has not yet passed, tho' gray Until the stars appear to light the way To greater things that God hath made, We know the sadness of farewell shall fade; Yet we, with faces turned toward the West Have pleasant memories of hours once blest Like this, our Junior Year!

Junior Class Kistory

YEA! 'Twas the Class of 1921 which came to Bucknell three years ago and which has been "leaving its footprints on the sands of time," ever since. Known, and rightly so, as "The Class of Beautiful Women and Handsome Men," we have excelled in everything. True, we suffered several minor defeats in our first year, but it took us that long to get organized and get our second wind. Since then, the other classes have been compelled to swallow our dust, and to follow in our lead in their poor, weak way.

Look back over the men in the class and you will find that with hardly an exception, they have been in the Service of their country during the late unpleasantness. We have also enrolled in our ranks members of other classes, which we count as our particular good fortune, because in the future we will have the opportunity of linking their famous names with ours.

In scholarship we take the lead in the University. Reading over our write-ups you will find that we are paragons in our studies and that we are worthy of being taken as a body into Phi Beta Kappa. We also are noted for the number and quality of our festive occasions, the like of which none of our contemporaries can boast. Taken all in all, life at Bucknell would be a dull and dreary time without the leadership and influence of 1921.

Junior Class Officers

Stanford Kunkle
President

SELAH SUTTON Treasurer

Hobart Brown Vice-President

Elizabeth Davis

ROBERT WALTER ANGSTADT LEWISBURG

"Bob," "Bobby," "Runt"

Lewisburg High School; Delta Sigma; Class Baseball (2); Sophomore Banquet Committee; College Orchestra (1, 2, 3); Band (1, 2, 3); Bucknell S. A. T. C.; Chemical Engineering Society; Chemical Engineering Course.

"She's a honey, I'm telling you!"

We have here "Little Bobby", noted musician and fusser of the Class of 1921. As a member of the Combined Musical Clubs and Manager of Derby's Nigger Orchestra, his drum and xylophone playing forces him to be present at many a social function. Although he is sometimes accused of being fielde, we would rather prefer to use the term versatile in referring to the promiseuous manner in which he seatters his attentions among the fairer sex. We predict for Bobby a very noisy but nevertheless successful earcer, whether it be "jazz" or "plumbing" he chooses for his life work.

WILLIAM WESTLEY BAIRD REEDSVILLE

"Red," "Willie," "Bill"

Recdsville High School, Class Football (1, 2); Class Baseball (2); Medical Corps, U. S. A.; Wrestling Team (1); Biological Course.

"Red" came to us from Reedsville, and most of his mail has the same postmark, but since we are sure his mother doesn't write so often, we are sure that there is a woman in the case. That may account for his reticence when the ladies are mentioned here.

"Willie" hasn't done anything record-breaking in athletics, but he loves the sport of them, and fights hard and clean when he plays them. He came here to prepare for greater things in the practice in medicine, and has kept his ideal well before him by laying a solid personal foundation. Hard work and persistence are his gods, and we are sure that success and attainment will join them later on.

VINCENT ARTHUR BALDAUF REYNOLDSVILLE

"Baldy," "Vince"

Reynoldsville High School; Sigma Chi; Theta Delta Tau; U. S. Army, A. E. F.; Class Football (1); Varsity Football (2, 3); Jurisprudence Course.

"And the twinkle of his sky-blue eyes, Belied his serious mien."

"Baldy" came to Bucknell from the bituminous coal regions, where it is rumored he has vast interests in several holes in the ground. He won his letter before the war, and has demonstrated his prowess on the football field since his return from the battlefields of France. "Vince" aspires to law, and if jurymen are as credulous as Freshmen, we predict a brilliant future for him.

EDNA MARY BAKER

LEWISBURG

"Bake"

Lewisburg High School; Pi Beta Phi; Mu Phi Epsilon; C. E. A.; Freshman Declamation Contest; Latin Philosophical Course.

"Who is Sylvia? What is she? That all our swains commend her?"

"Bake," being highly feminine, can adapt herself to everyone with whom she comes in contact. She is an all-'round girl and is one of the few thoroughly conscientious students on the Hill, dividing her time mostly between French, Music and Fussing—impartially. We cannot decide as yet in which "Bake" will receive her degree—maybe in all three! Anyway, we hope that she will be happy in whatever success she may have. "Petite," "charmant," "grandcoeur," what more can we say of the "Little Girl" who is loved as dearly by most of us as by anyone in "Pennsylvania." "B" careful, "Eddie", but then we know that you will be true Al-ways and that "'Al's' well that ends well."

CHARLES McKNIGHT BASHORE MIFFLINTOWN

"Cy"

Mifflintown High School; Oregon Agricultural College; Sigma Chi; S. S. U. 647, transferred from 525 A. E. F.; Civil Engineering Course.

"You may bank on it that there's no Philosophy like 'bluff'"

We welcomed "Cy" into our class this year, after he had spent a year with the "Oregon Aggies" and served in France with 525. "Cy" doesn't seem to worry about our fair co-cds, but there must be a reason from Mifflintown. "Cy" intends to live upon wit and surveying, and we all wish him our best.

GEORGE HAROLD BEATTIE

SHIPPENSBURG

"Harold," "Lord Harold"

Shippensburg High School, Phi Kappa Psi; Class Baseball (1); Varsity Baseball (2); Sophomore Banquet Committee; Bucknell Ambulance Unit; Wearer of Croix de Guerre with Silver Star; Civil Engineering Course.

"Indeed, tobacco stunts the growth!"

Harold is an overseas veteran, and when not studying, is given to talks, thoughts and dreams of France. We think there must be a good feminine reason. These thoughts, however, do not seem to interfere with his baseball pitching or pool shooting, as both of these activities are on the same high plane with his scholastic work. This latter, according to "Lindy" is always worth an "A." We are sure that Harold will find no unsurmountable obstacles in his way to the cherished seat at the head of the golden stairs of Fame.

MATILDA ELIZA BELL NEW MILLPORT

"Tilda"

Clearfield High School; Frill and Frown, Vice-President (3); Freshman Declamation Contest; Elocution Contest (2); Vice-President Student Executives (3); Junior Girls' Secretary; General Science Course.

"Never put off till tomorrow What you can do today!"

Here we have a girl who is always busy; not always studying, but attending Student Ex. meetings, practicing for plays or getting her secretary's notes ready for meetings. She is quite an orator and has given exhibitions of her skill in contests of various kinds. However, Matilda finds time to make friends and attend "feeds" given in the "wee sma' hours." In the future, Matilda will spring forth, and we predict a happy and successful career for her.

MARY BIERNE WILKES-BARRE

"Mary"

Wilkes-Barre High School; Latin Philosophical Course.

"A wise old owl lived in an oak,
The more he saw the less he spoke,
The less he spoke the more he heard,
Why can't we be like that wise old bird?"

One thing we can say about Mary that cannot be said about many in our class is that she possesses a great degree of individuality. She is sometimes thought of as being quiet and reserved, but if you should call around at her room, she will show you the hospitality and cheer she possesses. Have you ever read any of Mary's good themes? If not, you don't know what you're missing, because she has much talent in literary lines of which many of us are not aware.

LUKE REYNOLDS BENDER MILTON

"Luke," "Mose"

Milton High School; Lambda Chi Alpha; Bucknell S. A. T. C.; Junior Smoker Committee; Assistant in Machine Shop; Mechanical Engineering Society; Mechanical Engineering Course.

"Oh, what a pal is Mary!"

Do you believe in dreams? One would be led to suspect that Luke does from the manner in which he is seen wandering around in the halls between classes. However, one cannot judge by appearances, for once inside the "walls of knowledge" he can hold his own with the best. Luke's natural bent for mechanics leads one to believe that he made no mistake when he chose the M. E. course at Bucknell; nor did he make a mistake when he chose B. U. as a school. "There's a reason," as in all cases, and home ties are strong, for although Luke spends a great part of his time in Lewisburg, he finds time to while away a few evenings in Milton every week. His grim determination to succeed brings forth favorable comment from all who know him, and all join in saying that he will bring praise on himself and his Alma Mater as well.

SARAH MUSSER BERNHARDT LEWISBURG

"Sallie"

Lewisburg High School; Delta Delta Delta; Freshman Oratorical Contest, General Science Course.

"A good-natured smile for all, and a broad grin for the others."

If by asking many questions, a maiden may grow wise, We have a certain classmate who is bound to take the prize; For Sarah asks you this, and Sarah asks you that,

Whether we have gym to-day, and where did you get that hat? In spite of asking questions,

Our Sarah is very smart;

She is always around when wanted,

And ready to do her part.

CHARLES HILAIRE BITNER MILTON

"Doc," "Bit," "Schliz"

Milton High School; Sigma Alpha Epsilon; Theta Delta Tau; Phi Delta Sigma; Bucknell S. A. T. C.; Sophomore Banquet Committee and Toast; Calendar Editor, L'AGENDA; Medical Society, Vice-President (2); Pre-Medical Course.

"Here's a new one on Miller Johnson!"

The gentleman herewith pictured needs no introduction to the members of the class. To outsiders, however, we would say that this is the notorious "Doe" Bitner. When "Doe" came to us he was a mere child from the far distant City of Milton, but at the present writing a great change has come over this youth. He may now be seen wandering around the Hill with his cloth hat and fur-collared overcoat headed for the Biology Lab to renew his acquaintance with the mortal remains of John Hoffman. It is rumored that some day he has the intention of becoming a real doctor, and due to this intention we are about to lose him. We will miss this happy, industrious classmate, but we are sure he will raise the standard of his profession and make a name for himself in the realm of medicine.

JAMES MILTON BORTZ, Jr. vandegrift

"Jimmy"

Vandegrift High School; Sigma Chi; Bucknell S. A. T. C.; L'AGENDA Board; Special Architectural Course; Varsity Football (1, 2).

"It's nice to get up in the morning, But it's nicer to lie in bed!"

"Jim" is one of the "57" from Vandegrift, but we won't hold this against him because he is a valuable asset to have around. His course, you will note, is "Special Architectural," which seems to be a synthesis of three engineering courses. This should attest that he is a student. He is a first-class athlete, having won his letter in football. His leisure time is either spent in drawing for the L'AGENDA, or in pondering over some weighty question of the day, for besides being an artist, "Jim" is a philosopher of much understanding. He is especially apt in explaining some great mystery to certain Freshmen. As you have already noted, "Jimmy" is an all-round man, and some day we expect to point him out as America's most brilliant architect.

CHE CAGENDA & NINETEEN GWENTY ONE

CHARLES FRANKLIN BRANDT SHARON

"Boots"

Sharon High School, Phi Gamma Delta; Vice-President Freshman Class, Class Treasurer (2); Bucknell S. A. T. C.; Varsity Football Squad (1, 2, 3); L'AGENDA Board, Captain Freshman Football Team; Class Basketball (1, 2); Class Baseball, Chairman Sophomore Cotillion, Medical Society; Pre-Medical Course.

"Be there a Bucknellian with soul so dead, Who never to himself hath said, 'Who is Boots Brandt',' "

If there is, we greatly desire to see that person and get his picture for the "Odd, Strange and Curious" department, for "Boots" has been continually in the public gaze in all lines of school activities. Here we have the husky young man who bowled over opponent after opponent in the Frosh-Soph game in 1917, and brought the very goalposts to the ground. This same flaxen-haired lad also planted the clusive pigskin beneath the Penn goalposts for the first time in a good many years. So six or eight years from now, when you hear of a young doctor from Sharon with fame exceeding that of "Bonesetter" Reese, do not wonder who it is, but just say, "It is Brandt" For the grit, personality and perseverance exhibited at Bucknell can spell but one word—success

GEORGE HOBART BROWN

MORRISTOWN, N. J.

"Hobe," "Brownie"

Morristown High School, Phi Gamma Delta, Class Treasurer (1); Vice-President (3); Bucknell S. A. T. C.; Glee Club (1, 2, 3), Soloist (2, 3), Vice-President and Treasurer Glee Club (3); Freshman Declamation Contest, First Prize; Class Baseball (1, 2); Class Basketball (2); Chemical Society, Operatic Society; Oratorio Society; Chemical Engineering Course.

"You tell 'em, I'll keep the crowd back."

He came to school with good intent
To take a course from Heaven sent;
His mind he changed, and now you see
The object fixed on chemistry;
Yet that alone is not his forte,
For music is another sort,
And Glee Club Fame would be 'way back
Were it not for "Hobe" and his "Three for Jack;"
A man like this may go his way
And tell the World, "My will obey."

JOHN PACKER HAAS CARTER SUNBURY

"Nick," "Appleknockers"

Milton High School; Phi Gamma Delta, Bucknell S. A. T. C.; L'AGENDA Staff; Chemical Society, Chemical Engineering Course.

"Let's play Jewish 500,—4981"

Back in the dim, dark ages, it was once rumored that Carter had pulled an original joke, but nothing of this character has happened during his stay in Bucknell, and though he is now getting discouraged and is turning his attention to Indian relies and butterflies, one of his ancient, rotten and disreputable jokes sometimes emanates from underneath his Semitic beak. As a fusser he is worthy of mention, for although the object of his affections is far, far away, she wears his fraternity pin over her heart. Work is now his favorite diversion, and in the future you may look for Carter's little bungalow perched well toward the top of the Hill of Success.

RICHARD CARVOLTH PECKVILLE

"Dick"

Peckville High School, Bucknell Ambulance Unit, A. E. F.; Class Football (1, 2); Jurisprudence Course.

"An honest, willing, kind, fellow!"

Dick left Bucknell in his Sophomore year to fight for Uncle Sam, and after two years in France, he came back to join the Class of 1921. In addition to being a good student, he is an athlete of no mean ability. Although his size has been against him, he played class football for two years, and in playing showed the fair play and fighting spirit which is characteristic of him. He intends to be a lawyer, and if his determination stands him in good stead, he will soon rise to the top of his profession. We welcome him to the Class of 1921, and wish him the best of success in all his undertakings.

CLARA MARGARET CASNER WILLIAMSPORT

"Peggy"

Williamsport High School; Eta Sigma; Elocution Contest; Girls' Treasurer (3); College Girls' Reception (2); Assistant Business Manager L'Agenda; Elocution Graduate; Biological Course.

"I ought to have a letter today!"

Clara hails from the big City of Williamsport and is one of the bright and shining lights of the Junior Class. She not only excels in scientific studies, but is a star in dramatics also, and may always be depended upon to do her share of work. Although she is a very studious girl, she always has time for social affairs, and is never too busy to offer helpful suggestions about perplexing questions. Just why she is always expecting letters we can't tell, but we predict a brilliant career for her in her chosen profession—medicine; perhaps the letters are from future patients—who knows?

FOREST NATHANIEL CATHERMAN MIFFLINBURG

"Viscount," "Cathy"

Heartly Township High School; Mifflinburg High School; Bucknell S. A. T. C.; Civil Engineering Society; Civil Engineering Course.

"Let's see it."

"Cathy" decided a few years ago that he would quit teaching and become an engineer, so he came to Bucknell. We have been greatly pleased with his decision, since it brought to us a good student and a pleasant companion. Although the "Viscount" doesn't seem to take such interest in the fair ones of this locality, it is rumored that there is a "Little Blue Bird" waiting for him at home. "Ephie" says that there is an ever-increasing demand for good goods, and as "Cathy" is made of just that stuff, we predict that he will bring fame and honor to the name of Old Bucknell.

VICTOR GORDON CLARE

MILLVILLE, N. J.

"Vic"

Millville High School; Lambda Chi Alpha; Bucknell S. A. T. C.; Class Football (1); Class Basketball (1, 2), Manager Class Basketball (2); Class Baseball (2); Sophomore Cotillion Committee; Junior Prom Committee; Assistant Business Manager L'AGENDA; Assistant Business Manager Bucknellian (3); Chemical Engineering Society; Chemical Engineering Course.

"Goodness gracious, you know what I mean!"

To sum up all of "Vic's" qualities would be quite a task. Talented as he is in many lines, he has made a name for himself among his fellow students by his steady habits and his sportsmanlike attitude. Figuring prominently in all class athletics, "Vic" has always come out on top. He does very little talking, especially about his social engagements, and it's no uncommon thing to see him slip out in the evening—where to, he alone knows. He has already made a name for himself as a business man, as you will notice in his list of activities, and as a scholar, he ranks among the leaders. His prominence in college will warrant his success in other fields, and it is the wish of all to see him win out.

HILDA DIXON COATES

WILKES-BARRE

"Hil," "Coatsie"

Plymouth High School; L'Agenda Board; Operatic Society; Girls' Glee Club; General Science Course.

"Her eyes like stars of twilight fair, Like twilight, too, her dusky hair."

If you hear anybody saying, "Let's go to the Purity," you will know that it is none other than "Coatsie." To Hilda, a dance, a game of tennis and a good book spell life. Do not gain the impression that she is frivolous, for she is capable of higher pursuits; indeed, the writing of poetry is one of her favorite pastimes. She has a soul of wit, and her brown eyes are ever sparkling with humor. In addition to this pleasing personality, she is an earnest worker, needing no introduction to "A's," and the least that can be said is that she has a very promising future.

BARBARA HELEN COE INDIANA

"Barb"

Clymer High School; Perkiomen Seminary; Kappa Delta; C. E. A.; Frill and Frown; Girls Treasurer (2); General Science Course,

"She's studious, friendly and active, Clever, pretty and attractive."

Dimples and smiles, hard work and a good time are only a few of "Barb's" characteristics. Her charming personality is not alone appreciated by the girls, for "Barb" is a shining light in society, and rarely misses a dance, party, or game, and as for hiking—!! ?—

Whenever a good film is on at the Orpheum, we are sure that at least two seats are reserved in the fusser's corner, for "Barb" and Crowl never miss a good show.

MARGUERITE NANCY COE

INDIANA

"Peg," "Peggie"

Clymer High School, Perkiomen Seminary; Kappa Delta; General Science Course.

"D'ye she it? She it?"

"Shertainly! Shertainly!"

Not that "Peg" is a feminine counterpart part of "Poppy". for she is a quiet little lass, except when in a pugilistic mood. At such a time she always has a good reason, for 'tis natural to impose upon an unselfish nature. One of her special good points is her culinary ability, which she gladly employs to appease the ravaging hunger of her "family," so we're sure that "Peg" will make some fortunate man very happy, "for the way to win a man's heart is thru his stomach".

LYDIA COENE PATERSON, N. J. "Lyd," "Lydia"

Paterson High School; Kappa Delta; Mu Phi Epsilon; Frill and Frown; Class Poetess; Debating Council; Manager Girls' Debating Team (3); College Girls' Reception Committee (3); L'AGENDA Board; Y. W. C. A. Cabinet.

"Bright Star! Would I were steadfast as thou art!"

After such a wicked lot of information about one little blonde-haired girl, you may wonder what more is to be said. In that case you have not had the extreme pleasure of really knowing her, for this whole page could not contain all of "our Lyd's" good points. Her interests? Oh, they are mostly in B. U., to be sure, but we must confess that Wesleyan holds her greatest one. While always an "A" student, Lyd's greatest forte is French. You see, she is of pure French descent, and came to us with a knowledge of it that made her famous at once. Perhaps it is the essence of the French spirit smoldering within her that makes this maid such a loyal and steadfast friend and pal. Her career? Haven't you guessed? It will be concerned exclusively with "Palmer"-y. In any event, we know that she will be successful, and we wish her happiness.

WILLARD HENRY COLLINS

LEWISBURG

"Eddie," "Colly"

Lewisburg High School; Sigma Chi; Bucknell S. A. T. C.; Class Baseball (1); Varsity Baseball (2); Class Basketball (2); Sophomore Cotillion Committee; L'Agenda Board; Junior Smoker Committee; Mechanical Engineering Society; Mechanical Engineering Course.

"Want anything to eat tonight?"

"Colly," the boy who has something on Mrs. Anna Scott when it comes to tossing up tasteful and delicate dishes, is a real asset to the Class of '21. Early in his college course he won a position on the Varsity nine, which he has held with marked ability. As a student, he is of the A No. 1 type, and is a persistent worker in anything he undertakes. With his domestic information and pleasing personality he is assured of a peaceful and successful married life.

EDWIN BAILY COOKE

WILKES-BARRE

"Cooke," "Ed"

Wilkes-Barre High School; Delta Sigma; Bucknell S. A. T. C.; Class Football (1); Class Baseball (2); Assistant in Surveying; Glee Club (1); Mechanical Engineering Society; Mechanical Engineering Course.

"I'll owe it to you!"

Cooke is an engineer. We say this not for ridicule, but for emphasis. From his smile and his volubility, one would naturally think he was a book-agent, but he really isn't. Cooke says that he doesn't think much of the Semites, claiming that he knows them too well, but he has been known to fall just the same. With all of his joking, there is a serious side to his nature. In addition to his work, he is interested in athletics, music, and society, and so is securing a broad and liberal education. He is an excellent companion, a desirable friend, and possesses a frankness of disposition and an ability to work hard, so there is only one thing to predict for him—success.

DAVID RAYMOND CROSSGROVE LEWISBURG

"Jack"

Lewisburg High School; Georgetown University; Sigma Chi; U. S. Navy; Law Club; Greek Philosophical Course.

"I'm in a class with Dicky Hall."

"Jack" is one of the so-called "town boys," and proud can the "burg" be of Jack, for as a student he stands right up in the front ranks. As a real plugger, full of push and vim, he can't be beaten. With those assets, he will have little trouble reaching the zenith of legal fame, towards which goal he has centered his ambition.

CLARENCE ANDERSON DAVIS NANTICOKE

"Soup"

Nanticoke High School; Phi Gamma Delta; President Pro-tem Freshman Class ('19); Bucknell Ambulance Unit, S. S. U. 524; Class Banquet Committee (1); Freshman Declamation Contest; Class Football; Jurisprudence Course.

"How de do, please!"

Feel grouchy, worried, distressed, or what not, and then talk to "Soup", and your troubles will all vanish into thin air. He is a worry-killer, with his carefree, what's-the-use-of-worrying attitude. We don't want you to think that he is slothful or careless—perish the thought! He's just cheerful, of the happy, optimistic type. Among the first to leave college for the Service was "Soup"; and his task "over there" completed, he returned to Bucknell to finish his work. We are glad to welcome him to our class, for we feel that one of his cheerful disposition cannot but help to augment the good of 1921. Although his pet hobby is to "Hurry up and get a back seat," we know that his seat in the world will be well to the front.

ELIZABETH LILLIAN DAVIS

NANTICOKE

"Bess," "Bessie"

Nanticoke High School; Pi Beta Phi; Class Secretary (3) College Girls' Reception Committee (2, 3); L'AGENDA Board; Latin Philosophical Course.

"A glance to the wise is sufficient."

Bess, although slight in weight and stature, atones for all that in her general character and reputation. She is a studious girl, but does not allow herself to become a bookworm, for she has her fun along with the rest of the "jolliers." Latin and French are as nothing to her, and it has been said upon good authority that she eats her textbooks and spits out knowledge when the occasion so demands. If one asks her to do a favor or to root at a basketball game, either will be done cheerfully and so well that one is tempted to repeat the request. Justice is one of her strong points, and she expects a return of it in the same full measure that it is given. Bess expects to teach the little coalminers of Nanticoke out of her store of modern languages, and we know that she will do it in the same whole-hearted way that she has done everything else.

HERBERT NATHAN DERR

MILTON

"Hub," "Hoiby"

Milton High School; Phi Kappa Psi; Assistant Basketball Manager (3); Assistant Editor L'AGENDA; Assistant in Chemistry; Chemical Engineering Society; Chemical Engineering Course.

"I am a stranger here, Heaven is my home!"

"Hub" is a happy mixture of chem lab, music, and assistant in everything. He is serving his second year as an assistant in chemistry, which explains McGann, accounts for his being that way. Now then, reader, this is strictly confidential: Hub is working on a new method for the preparation of an undiscovered acid. If he succeeds, the world will be his, so we all confidently hope that this will happen soon. In the future, students under "Billy" will study the works of Priestly, Cavendish, and Derr.

EMILY KATHRYN DEVINE DUNMORE

"Em," "Emmy"

Dunmore High School, Eta Sigma, Frill and Frown, Freshman Declamation Contest, Gymnasium "B"; Girls' Vice-President (3), Bucknellian Staff (3); College Girls' Reception Committee (2, 3); Elocution Graduate; Girls' Glee Club; General Science Course.

> "Happy am I, from care I am free! Why aren't they all contented like me?"

"Emmy" is a delightful sort of girl whose pleasing manner and friendly smile have won her many friends. She loves to talk, and casts an occasional giggle into the conversation for punctuation. "Em" is known all over, by and for her rippling laugh, which is really only her good nature bubbling over. In spite of this little titter we find her to be an all-round girl—studious, jolly, witty, full of pep, literary and dramatic ability. All these and still more which time and space do not allow us to enumerate we find to be the characteristics of this little miss. She has proven to be a leader in all that she has undertaken, and we hope that her jolly spirit will help her to go laughing through life.

CHARLOTTE NOREENE DIETZ DANVILLE

"Dot," "Lottie"

Danville High School, Domestic Science Certificate; Glee Club; Eucpia Literary Society; Elocution (2); Missionary Committee; College Girls' Reception Committee (3); General Science Course.

"Very studious and sedate is she."

Lottic is quite a dreamer, but she knows when to dream and when not to. She is especially noted for her kindness and reliability, being always ready to lend a hand in case of sickness or in the more domestic difficulties, such as cooking or sewing. In addition to all this she is looked upon as the source of good sound advice, and many are the persons she has helped. When she leaves Bucknell she will leave behind her a blazed trail of loving friends who will ever cherish her memory in their hearts.

ESTHER VIRGINIA DODSON WESTMONT, N. J. "Hicky"

Haddonfield High School; Y. W. C. A. Cabinet, Latin Philosophical Course,

Motto: "Better late than never."

Hobby: "Vamping the men"

Occupation: "Looking on the sunny side of life."

"Hicky" is always as busy as the proverbial bee, improving each shining hour with great enthusiasm. She buzzes around from one place to another, always occupied and happy. She has an irrepressible spring of mirth which is always bubbling over and announcing its overflow by means of the "Dodson Special," which is something new in giggles. If the old saying that "nothing is impossible to a willing heart," is true, she should be able to have the world at her feet in a short time. In addition to all this, she is really a capable girl, and when she shakes the dust of this institution from her feet, she is sure to go to the top of the ladder of success,

THOMAS RAYMOND DORRIS NANTICOKE

"Denny," "Ray"

Nanticoke High School; Sigma Chi; Phi Delta Sigma; Class Bascball (1, 2); Varsity Basketball (1, 2, 3); Medical Society; Pre-Medical Course.

"Now up in Nanticoke—"
Chorus: "Get the mallet!"

Biology, basketball and co-eds are "Ray's" favorite topics. He expects to be a doctor when he completes his education. Ray plays basketball and received his letter last year, and this year he is a big factor in the team's successes on the floor. Now that "Dot" has moved over into Wolfe House, "Ray's" spare time has been entirely accounted for.

"Ray" leaves us this year to finish at medical school, and our class loses a member, but we send along our best wishes for his success

HOLMES TOMLIN DOUGLASS CAPE MAY COURT HOUSE, N. J.

"Doug"

Middle Township High School; Electrical Engineering Society; President, Rifle Club (2); Electrical Engineering Course.

"Doug" hails from a tiny metropolis on the sandy shores of South Jersey, where they eatch herring in box traps, and pinching crabs abound, and the air is laden with the fragrant odor of oysters and filled with the buzz of mosquitoes. "Doug's" high-powered brain, we believe, is due to the fact that he was raised entirely on fish, for he is a whiz at math, and handles a slip stick as naturally as he does a knife and fork. From the amount of his avoirdupois, one would think that "Doug" was a hearty eater, but this he claims is untrue, and says that if he had to pay only for what he ate he would soon become rich. Already his influence has been felt in the world, for Cape May Court House owes its place on the map to him and his fame as a coming electrical engineer.

HOMER TITUS EATON

"Pigeon," "Anticipation," "Rabbit," "Titus"

Erie High School, Phi Gamma Delta; Bucknell S. A. T. C.; Glee Club (1, 2), Secretary Glee Club (2); Freshman Declamation Contest; Class Baseball (1, 2); Class Basketball (1); Law Club, L'AGENDA Board; Jurisprudence Course.

"That Eaton boy slings the most serious line—"

At "Pigeon's" request we have refrained from telling of the circumstances and nickname which accompanied his debut in Lewisburg; suffice it to say that in that, as in his subsequent adventures during the fall of his Freshman year, "Antiss" displayed violent originality. Perhaps it is this quality which, accompanying him through life, will make him so successful in finding loopholes in the law through which future Rockefellers may escape. Homer made his musical start in a touching little negro melody which he later rendered before a hazing committee on the Athletic Field. Greater success has since attended his efforts, and this year he is singing in "one of the largest churches in—Milton." Whether in music, baseball, basketball, or bull, "Pigeon" has always scored a marked hit, and we can be sure that he will travel to whatever goal he sets his path.

WALTER PIERSON EDWARDS GOULDSBORO

"Eddie"

Gouldsboro High School; School of the Lackawanna, Sigma Chi; L'AGENDA Board; Chemical Engineering Society; Chemical Engineering Course,

"One, yes only one, I love!"

Strangely inapplicable as the above quotation may appear in the life and character of the average college student, we must admit that these words of Tennyson's find an appropriate expression in the thoughts and conduct of our friend "Eddie." As a forecaster of events and weather, the Lancaster Almanac is not to be compared with him, and his proverbial. "I feel it in my bones!" is conclusive evidence that his prophecy is to be fulfilled. Gouldsboro must have sent Bucknell her choicest son, for in "Eddie" we have a boy with rare virtues. Always happy, optimistic and broad-minded, he forms a source of information and inspiration to us all. No one could ever doubt the success which "Eddie" will attain in life.

CHE CAGENDA & NINETEEN GWENTY ONE

HAROLD SPENCER EISLEY

LEWISBURG

"Bud," "Mary," "Plumber"

Lewisburg High School, Delta Sigma; Chemical Engineering Society; Chemical Engineering Course.

"Let's go fishin'!"

Around this member of the famous gang of plumbers there hangs a cloud containing many deep mysteries. Many a person has been so foolish as to ask: "Why is he so quiet?" The answer is very simple—just follow him into the wilds of Paddy Mountain and hear him call wildcats—It has been calculated with mathematical precision that he makes enough noise in two weeks there to last him the rest of the year. Again someone asks: "Why does he never fuss?" He does, but he has never been caught in the act. We know that a very successful and illustrious career in his special line awaits him after he leaves the portals of our institution.

CHARLES MALCOLM EMERICK

NITTANY

"Mac"

Hublersville High School, Muncy Normal, Forum, Class Treasurer (1), (17); Freshman Declamation Contest, Intercollegiate Debating Team; Sophomore Banquet Committee and Toast, Cap and Dagger, Y. M. C. A. Cabinet, Assistant in Oratory; Secretary Law Club, University of Lyons, France; Bucknell Ambulance Unit, A. E. F., Wearer of Croix de Guerre; Jurisprudence Course.

"His words ring true"

Oyez! Oyez! Make way for the judge! Here we have "Mac." widely and variously known as student, orator, amateur politician, thespian, embryo Blackstone, and prince of good fellows. His influence has always been potent in class and school affairs, and by those who did not get to France, there was perhaps no single man whose homecoming was more eagerly awaited. He will leave us at the close of this year, as his work in a French university will enable him to graduate. However, when he goes, he will carry with him the best wishes of his army of friends here at Bucknell.

STUART A. EPLER

READING

"Stu"

Reading High School; Bucknell Academy; Phi Kappa Psi; Sapper in Royal Engineers, English Army; Mechanical Engineering Course.

"In favor of the prohibition of prohibition."

"Stu" hails from the pretzel town, and that, according to Hoyle, is not all that was made there. However, he is an arch patriot, and his courage and tenacity have been strongly in his favor. He tried to enlist in sixteen different branches of Uncle Sam's outfit, and having failed, journeyed to London and joined the ranks of John Bull's bloody engineers. After the war was over, he returned to Bucknell to get training to fight the battles of life. Can the future hold anything but success and happiness for a man who plays the game in such a true-hearted manner?

DAVID HOBART EVANS

WILKES-BARRE

"Hobie," "Hob"

Wilkes-Barre High School; Delta Sigma; Manager Class Football (1); Freshman Declamation Contest; Sophomore Oratorical Contest (Prize); Y. M. C. A. Cabinet; Cap and Dagger (2,3); Member and Assistant Manager Intercollegiate Debating Team; Bucknellian Staff (1,2); Debating Council; Literary Editor L'Agenda; Ministerial Association; Greek Philosophical Course.

"Let us pray!"

The man whose face we see here and whose cognomen appears above is a hale, hearty, wholesome son of the coal mines. When he was but two years of age, he was kicked by a mule in the mines, and some time later his parents, realizing that he would never amount to anything, decided to send him to Bucknell and make a preacher out of him. The list of accomplishments stated above are rather contradictory to the expectations of his fond parents, but "Hob" deserves all of the honors which have been showered upon him so lavishly. He has proved, through his fine sense of humor, his high ideals, and sterling character to be a pleasant companion, a true friend, and a man worth while.

ANNA GLADYS FAIRCHILD MONTANDON

"Anna," "Happy"

Montandon High School; Pi Beta Phi; Class Historian; Frill and Frown; Freshman Declamation Prize; L'AGENDA Staff; General Science Course.

"Never trouble trouble till trouble troubles you!"

To one not acquainted with her, Anna seems rather quiet and reserved. However, it is possible to penetrate this reserve, and when this is done we find a girl full of fun, full of work, and in fact, just the kind of a person we all like to know. She is always in a good humor—even on the cold, frosty mornings when she is compelled to hike from the grand and glorious metropolis of Montandon in time for "Prexy's Ethics." And although she is small in stature, her many friends are confident that her size will not prevent her from doing big things in the world.

JOHN CRAIG FINNEGAN BELFORD, N. J.

"Irish," "John," "Finnie," "Admiral"

Leonardo High School; U. S. N. R. F.; Class Baseball (1); Glec Club (2); Sophomore Banquet Committee; Junior Prom Committee; L'AGENDA Staff; Civil Engineering Course.

"Pipe down, you rookie!"

Here we have one of the faithful members of our class. No matter when one enters his room, John is always found hidden behind a huge stack of books or tinkling blithesome melodies on a battered guitar which he found in someone's ash can. "Finnie" is a good manager, as he manages to take care of his studies and also to see that certain members of the fair sex are not forgotten. He is a very popular man around school, and no committee of any importance is considered complete without him. We all join in wishing him unbounded success when he takes his plunge into the turbulent world.

HATTIE COLE FERTIG

LEWISBURG

"H," "Hattie Cole"

Lewis Township High School; Mifflinburg High School; Eta Sigma; Latin Philosophical Course.

"A faithful friend!"

This live little miss from Indiana hails.
And keeps us merry with wild western tales;
But since she decided to live in the East,
We visit her country home to feast.
It isn't far; she walks twice a day;
"It's good for my health," we heard her say.
"Her air, her manner, all who saw admired,
Courteous though coy, and gentle though retired;
The joy of youth and health her eyes displayed
And case of heart her every look conveyed."
Take heed, all ye who would be wise,
And read the lesson in our Hattie's eyes.

GRACE FOLLMER MILTON

Milton High School; Kappa Delta; Latin Philosophical Course,

"Full many a flower is born to blush unseen."

Every day this quiet little girl does an involuntary "shimme" down from Milton and back again on the L. M. & W. We ean't blame her for being silent about that, but she extends to principle everywhere she goes, except in the class-rooms. On getting better acquainted with her you will find that she is a very pleasant companion and charming conversationalist. She has not told us what she anticipates making her life work, but no matter what she does, we all know that it will be well done.

CHE CAGENDA & NINETEEN GWENTY ONE

EMMA MAGDALENA FUHRER SCRANTON

"Emy," "Fury"

Scranton Central High School; Y. W. C. A. Cabinet; Essay Contest Prize; Drama Club; Glee Club; General Science Course,

> "Something attempted, something done, Has earned a night's repose."

"Boo hoo! I want to go home!" was the sorrowful plea of "Emy" when she first came to Bucknell. This might have been caused by the sudden change from city life or there may have been a "nicer" reason. However, she no longer mourns, and has devoted her energies and skill in working for the honor of Old Bucknell. Poetry and theme writing are her chief hobbies, while her spare moments are spent in furnishing music for the gay dancers of the Women's College. In addition to all this she is of an artistic nature and can wield the pen or pencil eleverly. Taking her all in all, "Emy" is "some girl," and is sure to make her mark in the world.

KATHARINE MAY FULFORD MORRISTOWN, N. J.

"K"

Morristown High School; Pi Beta Phi; Frill and Frown; Girl's Class President (1,2); Student Government Sceretary (2); Y. W. C. A. Cabinet (3); Bucknell Representative at Student Government Conference, Wilson College, 1919.

"True as the needle to the pole, Or the dial to the sun."

When "K" was a Freshman she appeared as "Conscience" in Frill's and Frown's "Everywoman." Admirably she played her part, and the role evidently suited her so well that she has continued to enact it ever since. To know her is to love her, for beneath a mild exterior lies a wealth of fun. She is an all-'round girl, being especially famous for hiking and skating. There is another important side of "K's" nature—probably best explained by the fact that she is fond of moonlight scenery, and may often be found at her window, wearing a scraphic expression land little else). It is easy to prophesy for her a future of happiness and success with a host of friends,

ALBERT LESLIE GANDY CAPE MAY COURT HOUSE, N. J.

"Al," "Gandy"

Middle Township High School; Class Track (1); Varsity Track Squad (1,2); Bucknell Ambulance Unit 524 S. S. U. 635; General Science Course.

"Watch my dust!"

After being absent for several years, running Fords for Unele Sam "over there," this lad has returned to complete his course at Bucknell, and we feel truly honored to welcome him to the Class of 1921. However, his greatest fame here lies in the fact that he is a track man, and may often be seen in the mornings puffing laboriously around the "Four Mile" in preparation for some coming meet. Some day we are liable to hear of him smashing Ted Meredith's records, and doing the mile in nothing, flat. Grit and determination are his characteristics, so we may confidently look forward to the time when "Gandy" will be a credit to the institution.

KARL GEORGE GOERDEL MIFFLINBURG

"Gurgle"

Mifflinburg High School; Sigma Chi; 1st Lieut. 314th Infantry, A. E. F.; General Science Course.

"After all, a woman is only a woman!"

Karl was formerly wont to commute, but this year he decided that his time was far too valuable to be spent hanging around stations. He was one of Bucknell's first volunteers to reach France, and his two years of thrilling experiences in that country would fill another L'AGENDA the size of this. He is blessed with an amiable disposition, having a kind word and a cheerful smile for everyone, and we feel confident that with these qualities he will brush aside all obstacles in his path in his future life.

ELIZABETH GROFF MONTGOMERY

Montgomery High School, General Science Course.

Have you ever heard of Montgomery? Elizabeth shows fair promise of placing Montgomery on the map (if such be possible). Reserved and stately, she possesses the true qualities of a successful schoolmarm. Energetic and persevering, she enters upon her work with heart and soul; when it comes to marks, Elizabeth has very taking ways where "A"s are concerned Elizabeth's interest lies in the field of Oratory and English, and she excels in the well-known national pastime of Spain. Her charming personality and tireless energy promise a bright and happy future,

ARTHUR EARL HARRIS

NEW CASTLE

"Art"

New Castle High School, Broaddus Institute; Westminster College; Sigma Chi; Medical Corps, U. S. Army; Varsity Football Squad (i); Y. M. C. A. Cabinet, Glee Club, Quartette; Assistant Comptroller of Athletics; Classical Course

"I could roll to bed with a Latin phrase And rise with a verse of Greek!"

This tall, slender classmate of ours commands our respect and regard. To describe him accurately would require powers beyond our ken. Take a ministerial student, add a foot to his height, mix with a bit of dignity, laughter and a generous portion of friendliness, and there you have "Art." We are fond of him, we respect him, and we feel that he will perform creditably in his higher calling some day.

ROBERT PAUL HARTZ READING

"Bobby," "Tiddo," "Buster"

Reading High School; Sigma Alpha Epsilon; Theta Delta Tau; Bucknell S. A. T. C.; Sophomore Cotillion Committee; Junior Prom Committee: Glee Club (1,2,3); Varsity Debating Team (3); Orchestra (1,2,3); General Science Course.

"Music indeed hath charms!"

The development of this notable would be an interesting study, but lack of space prevents a full account. You'd never suspect it, but Bobby comes from the city of beer and pretzels. When he came to this institution he brought with him his violin and his voice, and they proved to be sufficient recommendations. Bobby shines as a singer, a violin soloist and a debater, and does all three in an enviable manner. He has other fine traits, and when one understands his grouches, a better fellow is not to be thought of. He does not know at present what he will do when he leaves college, but we are not worrying over his case, because a man of his many accomplishments can make good in any line.

ALAN RICHARD HAUS READING

"Cv"

Reading High School; Sigma Alpha Epsilon, Theta Delta Tau; Phi Delta Sigma; Bucknell S. A. T. C.; Class Football (1); Freshman Hop Committee, Class Vice-President (2); Sophomore Banquet Committee; L'AGENDA Board; Glee Club (1,2,3); Chairman Junior Smoker Committee; Chemical Engineering Society; Chemical Engineering Course.

"I gave her that!"

If you hear a strong, clear tenor voice ragging the latest melodies, it is usually a safe bet that "Cy" is on the job. All his leisure moments are spent in song, and upon request he can favor you with any of the best sellers since the days when "Silver Threads Among the Gold" first became popular. This accounts for his being placed on the Glee Club as a ragtime soloist. Not all his time is spent in singing, however, for he is a great exponent of the foxtrot. He goes after his work in the same way he invades the social whirl, and attains the same degree of success. Here is a well balanced man, for his activities are literary, seientific, musical, athletic and social.

CHE CAGENDA & MINETEEN GWENTY ONE

RICHARD ROY HECKART SUNBURY

"Jazz"

Sunbury High School, Kappa Sigma; Glec Club (1,2,3); College Band (1, 2, 3), Bucknell S. A. T. C.; General Science Course.

"For I'm a jazz baby!"

In this quiet, unassuming fellow-classmate we have the reincarnation of the soul of the Ethiopian god, Jazz. On a trombone he can make Arthur Pryor take the count, while it is rumored that he goes to sleep with the sliding notes of the "Old Gray Mare" ringing in his ears. However, he can qualify as a musician on other instruments as well, for many is the fair maid he has moved to tears with the soulful notes of his cello. He is one of the reliable members of the Bucknell Band, and his clear, penetrating note can be heard above the rest of that organization for ten miles on a calm day. Prince of good fellows, a worthy student and a true friend, Heckart will be a power in the world of music in the not-too-distant future.

EDWARD FIELDING HEIM LEWISBURG

"Ephie"

Lewisburg High School, Phi Gamma Delta; Bucknell S. A. T. C.; Class Football (1); Scrub Football (1,3); Sophomore Oratorical Contest; Glee Club (3); Assistant Editor L'Agenda, Electrical Engineering Course

"Now as man to man—"

Here, ladies and gentlemen, we have the eighth wonder of the world—the only man who shoots "unconscious position" in a pool game. But as long as he continues to get away with it, we will make no more exposures of his character. His confidential manner of address stamps him at once as being either an oil stock promoter, a census enumerator or a Frank Brothers shoe salesman, but in reality he is nothing of the kind, he is only trying to "burn a cigarette." "Eph" has a brain, and is not afraid to use it, as well as a literary style that is enviable. The fact that he clubbed an "A" out of "Lindy's Strength," shows that he will win as many honors in the school of life as he has here at Bucknell.

CHE CAGENDA & XINETEEN GWENTY ONE

HENRY LEROY HELLER READING

"Abe"

Reading High School, Kappa Sigma, Sophomore Cotillion Committee; Sophomore Banquet Speaker, Cap and Dagger (1,2,3), Secretary (2), President (3); Dramatic Editor L'AGENDA; Bucknell S. A. T. C.; Freshmen Football Squad; Civil Engineering Society; Civil Engineering Course.

"Madonna! How sweet thy name doth sound!"

We take pleasure in publishing herewith the likeness of "Abe," last of the line of famous actors and society men. Booth, Sothern, and Douglas Fairbanks have nothing on him when it comes to drawing tears or laughter from an appreciative audience. His reproduction of "Strongheart" has moved many a pretty Semite into a leaky, laerimose state, and his taking off of a British nobleman is beyond imitation. As a society man he reigns supreme, winning and breaking hearts with the recklessness and abandon of a Wallace Reid, but of late he has centered his amourous fire on a denizen of Laceyville, and we are proud to say that he has come out on top. However, he does not allow his social obligations to interfere with his education, and we find him one of the hardest-working members of our illustrious class. In a few years his name will be ranked with the highest among the leaders in his chosen profession—civil engineering

JOHN C. HENDREN PHILADELPHIA

"Johhny"

North East High School, Philadelphia; Kappa Sigma. Theta Delta Tau; Varsity Football (1,2,3), Captain (3); Cap and Dagger (1,2,3); Class Basketball (1); Class Baseball(1,2); Field Artillery, U. S. Army; General Science Course.

"Pardon me, stranger, I've got a stone in my shoe!"

Hibernating from one of the small towns which when put together comprise the City of Brotherly Love, Johnny came to us with the intention of spending four consecutive years at Bucknell. The war, however, intervened, and he left for active service in Uncle Sam's Artillery. For three years he has shown his worthiness to be classed as one of the university's best half-backs. Extremely likable among his fellow men, and extremely lovable among his fellow women, he has already strewn his path with many happy friendships. His ever bright outlook on life, his determination, and his ability to get along with his fellow men, will win him a high place in life after he leaves Bucknell

GRANT OSWALD HERB SNYDERTOWN

"Oleo," "Oswald"

Sunbury High School, Forum, Bucknell S. A. T. C.; Chemical Engineering Society; Chemical Engineering Course.

"By their fruit ye shall know them"

"Oleo" hails from the unsophisticated hills of Snydertown. His exterior would lead one to think him innocence personified, but when it comes time to put on party clothes, he is always found in the thick of the fray. His beaming smile has won him many friends; yet he is above everything a student. Grant is one of "Doe" Brown's best bets, and is the original delver into the deep founts of chemical knowledge. We can only look forward to the year when we shall read of his fame and fortune.

JAMES LEO HESS

LEWISBURG

"Shark," "Hessian," "James Leo"

Lewisburg High School. Civil Engineering Society; Civil Engineering Course.

"She's my inspiration"

If anything happened to her, Leo would just pine away and die and leave us mortals here below. He used to be like this:

You see, he thought that he could take a few blue ribbons away from De Palma with a Flivver, so one Saturday night when a Farmer came to Town and didn't tie his Henry, Leo and a couple more Malefactors made the Baby-Carriage Shimmy up and down Market Street until the gas was All Gone. Then Rose of pious memory argued with the Bucolic Church Member until he consented to Ease Leo away from the Town Jug. located just Back of the Church

Now he has entirely reformed, and he knocks the spots out of Strength and Calculus with ease and grace. Of course, she had good material to work on, and we think that unless he backslides, Leo will prove to be the originator of more new mathematical principles than old Euclid himself.

SIMON CAMERON BURNSIDES HOLTER HOWARD

"Cam," "Blackbird"

Bucknell Academy; Sigma Alpha Epsilon, 238th Aero Squadron, U. S. Army; Manager Class Baseball (1); Chemical Engineering Society; Chemical Engineering Course.

"Haven't you ever heard of Howard, Pa."

The only claim that the little village of Howard has to fame is that it produced "Cam" Holter. "Cam" is one of the few who can claim the distinction of having attended Bucknell Academy. He has been connected with the University for many years, and all of this time he has been one of the main cogs in the registrar's office. If at any time advice is needed, consult Holter, but beware of his pessimistic outlook. Cam wants to be a chemical engineer, but we feel he would be better as a business man. He was once described as being something "between a hindrance and a help," but we think he is much nearer the latter.

ETHEL MAE HOFFMAN

NEFFS

"Ethel"

Slatington High School; Allentown College for Women; Girls' Glee Club, Latin Philosophical Course.

"There are some silent people who are more interesting than the best talkers."

Ethel, who hails from A. C. W., is one of these. Her pleasing personality and untiring energy make us thank the day that Ethel mended her ways and came up to Bucknell with us. Although unassuming in mien, she at times indulges in philosophical treatises that would astound Aristotle himself. She enters into her work with achievement as her watchword, and with such characteristics of work and determination as her foundation, that she is sure of bearing off the figurative laurels.

ROBERT LEON HULSIZER MILTON "Bob"

Milton High School, Lambda Chi Alpha; Ensign, U. S. N; Mechanical Engineering Society; Mechanical Engineering Course.

"I came to paint"

Feeling the call of his country, "Bob" enlisted in the navy at the close of his Sophomore year, and worked up until he received his commission. During school periods he devotes his time to traveling between Milton and the Woman's College, via Lewisburg. "Boh" is ever an ardent fusser, and many an afternoon sees him strolling through Lewisburg's sunny lanes (we nearly said alleys). In scholastic work, "Bob" is a hard man to beat, and is always successful in solving the hard problems which confront the budding engineer. A brilliant future is predicted for him, because of his inherent desire to get at the bottom of things.

JAMES BIGGER HUTCHISON SCOTDALE

"Red," "Hutch," "Bigger"

Scotdale High School; Phi Kappa Psi; Glee Club (1); Quartette (1); Class Football (1); Chairman Freshman Hop Committee; Chemical Engineering Society; Bucknell S. A. T. C.; General Science Course.

"Lo, Love descends from highest Heaven, To human hearts in mercy given: A spark of that celestial fire To lift us from Earth's wretched mire."

"Red" left the ministerial walls of Scotdale three years agoand appeared in our midst. Since that time, this scarlet-haired Adonis has been a leader in all of the activities he has undertaken, and has become prominent throughout the college. "Red" is always in the center of a crowd of barbershop harmonizers, and his ukelele adds the finishing touch to the ensemble. With such a personality and with such natural ability, we are sure he will be a figure of consequence in the world in the future.

LUTHER PAUL ILGEN MIFFLINBURG

"Paul"

Mifflinburg High School: Kappa Sigma, Theta Delta Tau Latin Philosophical Course.

"What the D'eal!"

Luther Paul hails from that little hamlet situated some distance out the pike, and styled in the atlas as Mifflinburg. He is a species of bird known as the "Commuter." and every morning sees him hastening up the aisle of "Prexy's Ethics." better late than never. It is thought by some of his more intimate associates that a female member of the opposite sex is at the bottom of his commuting instincts. No one absolutely knows why he is taking the Latin Phil course, because his taste runs to electricity, and his business interests to meat, but we must remember that the ways of the country are as a closed book to city eyes. However, Paul has the power of concentration, and there is no doubt in our minds that he will be successful in the future, through the agencies of hard work, perseverance, and less sleep.

EUGENE KALLAY LEECHBURG

"Skin," "Count," "Meatless"

Leechburg High School; Kappa Sigma; 88th Aero Squadron, A. E. F.; Junior Prom Committee; Mechanical Engineering Society; Mechanical Engineering Course.

We have with us at this time Count Eugene Kallay, who came from the smoky town of Leechburg to take up his residence at Bucknell. His early days here will long be remembered, for many a time did Prof. Rockwell stop his lectures to listen in awe and admiration to the melodious strains of the "Mississippi Blues" floating down from the floor above. Since then other factors in his make-up have gained prominence, especially his clever line used only when addressing the fair sex. But what could be expected from the well known billiard shark and the best pill roller of the 88th Acro Squadron' All of these qualities and many more besides go to make a man of "Sterling" worth, and we are sure that "Skin" will have a wonderful future, to the honor of Old Bucknell.

CHE L'AGENDA & MINETEEN GWENTY ONE

RUSSELL F. KELLER QUAKERTOWN

"Buss"

Quakertown High School, Kappa Sigma; Theta Delta Tau, Class Football (1); Junior Smoker Committee; Civil Engineering Society, Civil Engineering Course.

> "Work apace, apace, apace, apace, Honest labor bears a lovely face!"

In this smiling youth we have one of the best-natured men in school, also one of the most persistent fussers. Almost any day he may be seen strolling slowly down the street in the general direction of the Orpheum with Mary on his arm. No person here had ever heard of Quakertown until this loyal resident came to Bucknell, but he is gradually clearing up the mystery as to its name and location, so that we feel he is sure to put it on the map in the future. Starting out to be a lawyer, he soon changed to a course more suitable to his nature and talents, and is now ranked among the foremost of the "plumbers." If he attacks his life work with the same bulldog determination that he does his fussing, his name will bring honor and credit to Old Bucknell.

SARA ANNA KERSTETTER LEWISBURG

"Sarie"

Lewisburg High School, Girls' Glee Club, General Science Course, "A gleam of sunshine!"

In this young lady we find all that her name implies. She believes in taking things as they come, and she has a happy faculty of making friends easily. She loves company, fun and a jolly time, and she usually can't help but get all three. "Sarie" has so many accomplishments that it is indeed difficult to decide whether her playing, singing or dancing is the best. She is a hard worker, and it is expected that in the future her name will be on the lips of many, especially the lips of those belonging to the male sex.

CLARENCE HOFFMAN KEY

MILLVILLE, N. J.

"Schlissel," "Klutch"

Millville High School; Mechanical Engineering Course.

"Eat all you want, what you want, when you want it."

This is the philosophy of this tall, lanky youth from New Jersey. When he takes time out from his constant occupation, he is one of the best liked boys in the school. The fact that one is sure of a welcome, always seems to fill up his room just when he wants to study.

Clarence came here to acquire knowledge, in which he is succeeding to the queen's taste, being never late for a class and seldom receiving any mark below ninety. Key is pursuing the Mechanical Engineering Course, and shows many signs of catching up with it in the near future.

ALDEN PARK KING SUCCASUNNA, N. J.

"Chewie"

Roxbury High School; Forum; Bucknell S, A. T. C.; Operatic Society; Secretary of Medical Society (2), President of Medical Society (3); President of Morris County-Bucknell Club, L'Agenda Board, Pre-Medical Course.

"Quiet and studious—a good worker and a friend in need"

"How feelish we fool!" That's Chewie speaking. This jolly Junior came to us from the verdant hills of New Jersey, and had not been here many days before some of his more prominent traits were revealed to us. We have now come to know him as a good-natured and true friend. His genial disposition and optimism are qualities that make us know him better and will help him in the future. "Chewie's" ambition is to be a doctor, and we feel safe in predicting a great future for him in this profession if his college career may, be taken as an index to the unreadable future.

DENZIL KING

MUNCY

"Denzil"

Muncy High School; Susquehanna University; University of Pennsylvania; Medical Society; Biological Course.

"The bigger they are, the harder they fall!"

Denzil is one of the biggest mysteries of our class, because it is impossible to figure out what he is going to do next. Those who know him well say that he is a good student and a faithful worker, but that it is quite hard to keep him going on one thing at a time. He likes his vacations, and sometimes takes more than allowed by the law. He is also a wanderer of no mean ability, as he started his college life here at Bucknell, journeyed to Susquehanna and was not satisfied there, tried Penn and found that it did not come up to specifications, and then returned here to complete his course. It is our hope that he will meet with success in his undertaking.

ELVIN LaRUE KOHLER HUGHESVILLE

"Curley"

Hughesville High School; Delta Sigma; Bucknell S. A. T. C; L'AGENDA Staff; Assistant in Mechanical Drawing, Electrical Engineering Society; Electrical Engineering Course.

"How do you get that way"

Some people come to college for certain reasons; some obtain them after they arrive, and others have reasons thrust upon them unwillingly. This sober, industrious and earnest student, however, has proved to have acquired the first of these three early in his mundane experience. He hails from some place between Lewisburg and Williamsport, and obtained his air of mature experience from working in a meatmarket. He is fond of outdoor life, especially when term examinations begin. His chief sport is fussing once a term, in addition to the enjoyment he derives from feeding a healthy appetite at frequent intervals during the day and evening. Curley's ability as a student is equaled only by his natural business tendencies, and we have every reason to believe that he will achieve success in his chosen profession.

JOSEPH KOSTOS MOUNT CARMEL

"Joe"

Mount Carmel High School; Sigma Chi; Bucknell S. A. T. C.; Varsity Football (1, 2, 3), Captain (4); Varsity Baseball (2); Class Baseball (1); Art Editor L'Agenda; Mechanical Engineering Society; Mechanical Engineering Course.

"He comes up smiling!"

We take pleasure in introducing one of Bucknell's foremost football men. You see in him a man who does many things and does them well. In fact, his big word is "do," because he plays football, basketball, baseball and other sports, to say nothing of various musical instruments. To see him leaving on a Glee Club trip, reminds one of the advent of Santa Claus. Moreover, Joe is essentially a student, as his goodly number of "A's" proves. As to his future, we feel sure of his success, for he is able to take care of himself, and a man of his many accomplishments need never worry.

STANFORD LARUE KUNKLE WILLIAMSPORT

"Stan," "Kunk"

Williamsport High School; Sigma Chi; Theta Delta Tau; President Pro-Tem (1); Junior Class President; Bucknell S. A. T. C.; L'AGENDA Board; Mechanical Engineering Society; Mechanical Engineering Course.

"Business before pleasure."

Here we have a man who possesses all the qualities which one could desire. "Stan" came here with the intention of taking up Chemical Engineering, but later changed his course to a point on the other end of the Hill, where they teach Mechanical Engineering. We can all rest assured that with his hard labor and industry he will open the eyes of the world as an up-to-date "plumber." In books, "Stan" takes quite an interest; we mean that he has an interest in the Book Store; not in the volumes located there, but in his own particular goddess.

DONALD S. LAHER

EVERETT

"Donnie"

Everett High School; Kappa Sigma; Class Football (1); 305th Engineers, A. E. F., 80th Division; Mechanical Engineering Society; Mechanical Engineering Course.

"A face that should content me wondrous well, Should not be fair, but lovely to behold!"

We are not sure whether "Donnie" came here with the idea of taking a ministerial course or not. However, one of those momentary influences which sway the mind of youth, decided him in the direction of engineering, and he has kept to the narrow path of the "plumbers" ever since. He criticizes freely though by no means destructively; indeed, rather helpfully, which speaks well for a thoroughness in doing things towards a lucrative success in after life. By no means averse to feminine charms or beauty, he insists that variety is the spice of life, and that life without the spice is nothing. Uncle Sam used him well for two long years, and he returned to us stronger than ever for the profession of engineering. We know he will meet with deserved success.

HILDING ALFRED LARSON PORT ALLEGANY

"Swede"

Port Allegany High School; Lambda Chi Alpha; F. A. C. O. T. S.; Camp Zachary Taylor; Class Baseball (1); Class Football (1), Class Basketball (1, 2); Sophomore Class President; Mechanical Engineering Society; Mechanical Engineering Course.

"Pipe down!"

"Swede" placed Port Allegany on the map. This is stated without any slur at the town, but since coming to Bucknell, this blond-haired sawed-off (6 ft. 4 in) has proven that he can do things and command the respect of the men associated with him. A manner that is straightforward, and an ability to say things the way they should be said, gives Larson a place with the leaders. When it comes to the fair sex, "Swede" is "among those present," and can always be counted upon to make the party lively. The good wishes of his classmates go with him into engineering, in which profession he has elected to make a fortune.

MARTHA LEISER

LEWISBURG
"Mart"

Lewisburg High School; Delta Delta Delta: Mu Phi Epsilon, C. E. A.; Frill and Frown; L'AGENDA Board; General Science Course.

"Just give me a 'CHANCE'."

Mart is always ready for any undertaking. Every day some one asks:

"Who's going to take a part in Cap and Dagger"

Let Mart do it.

"Who's going to look after this or that"

Let Mart do it.

And Mart, always smiling, comes out on top. She has multitudes of friends. "but there is only one among the number who has any chance at all," says Mart.

DOROTHY AMELIA LENT LEWISBURG

"Dot"

Oxford High School; Pi Beta Phi; C. E. A.; Latin Philosophical Course.

"And once the heart of a maiden is stolen.

The maiden herself will steal after it soon."

When Dot came to Bucknell three years ago, she could not understand the unseemly interest those silly girls took in the callow youths who permeated the place. 'Tis said, however, that the years bring changes, and so it is that if Rip Van Winkle should again come back after a somewhat shorter absence of some "trois ans," methinks he would not recognize in the self possessed, stunning young person, who so calmly announces an "A" after twenty-seven neglected cuts, the old Dot of such serious ambitions. 'Fess up! a look at her picture convinced you that she must be a movie star, didn't it? Rather a good guess, too, for just now she is playing most successfully in a personally directed comedy drama, entitled "The Sweetheart of Sigma Chi."

WILLIAM WALLACE LEWIS TREVERTON

"Corky," "Lewie," "Flat Wheel," "Mochi," "Bill"

Treverton High School; Bloomsburg Normal; Class Football (1); Freshman Hop Committee; Sophomore Cotillion Committee; Medical Society; L'AGENDA Board; Biological Course.

"I'll be there in blossoms."

"Corky" is not exactly an advance agent for an earthquake, but his presence is never doubted

Week-ends were especially made for "Mochi" and his dances, for then he follows the river down the line and comes up smiling the next day or so, all ready for another week of hard work. When Bill puts in his time, "he surely do," and although sickness has kept him away from his studies for two terms, he is fast overcoming the handicap.

VORIS ALBERT LINKER WILLIAMSPORT

"Link"

Williamsport High School, Lambda Chi Alpha; U. S. Army; Class Baseball (r, 2); Captain (2); Williamsport-Bucknell Club; Electrical Engineering Society; Electrical Engineering Course.

"Come on boy, I am raring and tearing to go."

"Link" came to Bucknell with an excellent reputation as a baseball player, but owing to South American troubles and the Prohibition Amendment, he has had little chance to prove his prowess. His vicious slugging, however, brought him the captaincy in his Sophomore year. Between baseball scasons, "Link" kept the rails warm to Williamsport, but since his absence for a year, he has turned his attentions to Sunbury, where he seems to have found his "Stepp." Link's ambitions lie in the oil fields, and his spreading of the above-mentioned material in the class room should indicate that this practical experience will bring him great success later on.

MARGUERITE TERESA LOTTE PATERSON, N. J.

"Tess"

Paterson High School; Pi Beta Phi, Student Executive Committee; Y, W. C. A. Cabinet, Girls' Class President (3); Winner of Latin and Mathematical Prize (1); Latin Philosophical Course.

"Wisdom is valuable."

Yes, dear reader, this is "Tess," easily our most brilliant classmate. Capable and dependable, she always "comes through" when any task is assigned. She entered Bucknell with a reputation as a student, and so well has she kept it up that she would be able, if she wished, to graduate with the present Senior Class. "Tess," however, prefers to remain loyal to '21. In addition to her talents, she possesses a keen sense of humor and is a jolly companion and staunch friend. Success for her is assured.

JAMES RUSSELL LOWMAN JOHNSTOWN

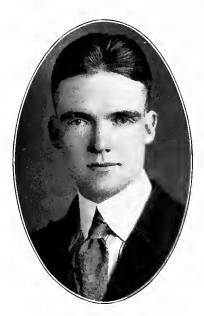

"Abe," "Bones," "Jerry," "Bushes"

Johnstown High School; Class Football (2); Mechanical Engineering.

"That plumbin' course of Burp's, now,—"

This is "Abe," the lad with the twitching foot. His one peculiarity is his roaming disposition, and he is never contented unless he is on the move. His evening occupation is to roam through the halls looking for an argument. Neither are two persons always necessary, for after his Sophomore Banquet it is said that "Abe" argued for three hours with the fountain in the Quadrangle, finally winning with a quotation from the seventh chapter of Hezekiah. "Abe's" traveling has found for him what we believe to be the idol of his heart, but whether she's in Williamsport, Milton, or Sunbury it is hard to discover. "Abe" didn't begin his college career with us, but we are glad to say that another good Meehanical Engineer will graduate with the Class of '21.

WILLIAM MEREDITH LYBARGER MIFFLINBURG

"Bill"

Mufflinburg High School; Sigma Alpha Epsilon, Bucknell S. A. T. C., Varsity Tennis (2); General Science Course.

"He took four wheels and an old tin can And made a Ford.—and the darn thing ran!"

"Have you seen Bill Lybarger lately"

"Yes, I think he was in class the other day!" The trouble with "Bill" is that by means of his Ford he can get to his home in Mifflinburg too easily, and as a result we see little of him. He is here one minute and home the next. Spring term is an exception, however. Should you want Bill then, look up a tennis court, for you are sure to find him there shooting 'em over with cannonball speed. Tennis is not his only accomplishment, for he is equally good on the banjo, and it is said that he can knock more harmony out of the "African cello" than anyone else around these parts. His future is a problem, but we are confident that he will solve it successfully.

FREDA CROWL MACKERETH OXFORD

"Mac"

Oxford High School, Eta Sigma, Gymnasium "B"; Elocution Student; College Girls' Reception Committee (2); Graduate Two Year Home Economics Course; Home Economics Course

"Didn't I get a letter?"

No matter whether the day is dark or bright, we always see Freda with a merry smile scurrying about, always in a hurry, and needless to say she always gets there on time. "Mac" is one of the hard workers of our class, jolly, witty, and always ready to help someone else. She is a wonderful cook, having taken domestic science work for several years, and she intends to pursue it after she leaves Bucknell. We suppose she will settle down on a farm, with a certain someone, else those letters, received daily, with a Penn State seal will have been in vain.

HANNAH FARR MADISON MUNCY

"Lily"

Muney High School; Pi Beta Phi; C. E. A., Class Secretary (1); Freshman Declamation Contest; Assistant Editor L'AGENDA; College Girls' Reception Committee (3); Latin Philosophical Course.

"I love! oh, how I love!"

Once upon a time a little girl came to college with eyes as big as saucers and an is-this-the-world expression on her face. Despite her innocent and harmless appearance, great is the damage she has caused both in classes and in the hearts of the susceptible sex. "A's" have been her aim, men her reward, and legion is the number of both. Nothing is impossible in her eyes, from her latest attempt to understand the depths of Ethics and Journalism to a hopeless struggle to successfully warble the limpid strains of "I May be Your Once-in-a-While." Winner of hearts, possessor of a thousand virtues and no vices, and yet so "Frank" and honest that the professors are always hurt in the rush at the end of the term when they try to get ahead of each other in giving her "A's". These few statements only give the reader a slight view of Hannah, and only the fortunate people who know her better can ever realize the great truth in this last remark.

MURVINGTON HUNTER MALAUN CARBONDALE

"Murph"

Carbondale High School; Phi Gamma Delta; Bucknell S. A. T. C.; Varsity Football Squad (1); Class Football (1); Medical Society; Vice-President Owl Club; Operatic Society; Pre-Medical Course.

"Please go 'way and let me sleep!"

We would not say that "Murph" was actually lazy, but he certainly does like every moment of sleep that the world owes him. When not busy studying, he is busy taking someone over in a pinochle game, and the regularity with which he gets four aces when he deals is extraordinary. And when it comes to kidding someone, he's a darby, because he feels that his prime mission in life is to "ride" the boys. It is rumored that he spent a little time on a liberal arts course, but when told by a cruel French prof that he "might learn French in time, but life is indeed short," he returned to Biology, where he has met with greater success. He intends to leave us next year to go to medical school, and we wish him the best of luck in his new fields of endeavor.

CHE L'AGENDA & NINETEEN GWENTY ONE

EDNA MARTIN

LEWISBURG

"Enie," "Eddie," "Edny"

Lewisburg High School; Eta Sigma; Freshman Declamation Contest; Elocution; Latin Philosophical Course.

"Divinely tall and most divinely fair!"

A town-girl whom everyone loves is Edna. Reserved in manner, but never haughty, with a comradely smile for everyone, she makes friends wherever she goes and is even popular with the Faculty. She gets the "A's" and also the "M's". We think of late that she likes one with M D, written after his name, but we will not divulge her secret. Her quietness has won her the respect and love of her classmates, and we extend to her our best wishes for a brilliant career.

THOMAS JAMES MANGAN

McKEESPORT

"Tommy," "Pap"

Bellefont Academy; Sigma Chi, Theta Delta Tau; Phi Delta Sigma, Bucknell Ambulance Unit, 524, A. E. F.; Varsity Football (1, 2, 3); Class Basketball (1, 2); Chairman Sophomore Cotillion Committee; Sophomore Banquet Committee; Chairman Junior Prom Committee; General Science Course.

"Somebody's got to get those cats!"

"Tommy" came to our class from the Class of 1010, after serving for two years in France with the Bucknell Ambulance Unit, 524. As a star quarterback and a man among men, he has the respect of everybody in college. We take great pleasure in welcoming him into 1021, and if his loyalty to our class shall be as steadfast and unswerving as his loyalty to Bucknell, we feel sure that we shall profit mutually by his advent

RICHARD A. MASON BOISE, IDAHO

"Dick," "Cowboy"

Boise High School; DeWitt Clinton High School. New York; Naugatuck High School, Conn; Kappa Sigma; 186th Aero Squadron, A. E. F.; Class Football (1, 2); Varsity Baseball (2); Mechanical Engineering Society; Mechanical Engineering Course.

"Of all women, believe me, boys, a schoolteacher for mine!"

After trying three high schools, Mason decided it was time to lay aside childish things, so he entered Bucknell with the Class of 1919. Between working in the shell plant, his studies, and the gentle joy of breaking a heart now and then, he was kept fairly busy until the spring of 1917, when he left for the first Officers' Training School. Emerging as a "Louie" in Artillery, he soon changed his mind and became an aerial observer. Continuing his travels to France and Germany, he left soon after the last gun was fired, to return to his Alma Mater. He joined the ranks of the Class of 1921, to which we feel that such a man and a student is surely an asset.

FLOYD KLINE MAYHOOD

BLAIRSVILLE

"Kliney"

Blairsville High School; Delta Sigma; Bucknell S. A. T. C.; Assistant Manager Varsity Football, Glee Club (3); Electrical Engineering Society; Electrical Engineering Course.

"Ah, boy, she's some baby!"

"Kliney" has a pet theory that it isn't wise to neglect either his studies or the women. According to him, study alone makes a man dull, and women alone make a man foolish, but the two when properly mixed, will turn out the finished product. He arrived here some odd years ago from an unheard of place by the name of Blairsville, but he is a credit to the town and is fast putting it on the map. He is industrious and not afraid of good, hard work, is seldom late to classes, and never cuts. With his bulldog tenacity, we feel sure that in the future as we count up the many successful men in our class, his name will be found near the head of the list.

IRENE McALLISTER McKEESPORT

"Irene"

 $\label{eq:McKeesport} \begin{tabular}{l} McKeesport\ High\ School\ ,\ Allegheny\ College\ ,\ Latin\ Philosophical\ Course\ . \end{tabular}$

"Old books, old wines, Old friends are best."

This is what Irene evidently thinks, for she is choosing her new friends with care. A stranger to Bucknell, she is going about among us making little noise but many friends. Even though a newcomer, we can see clearly that she is a conscientious student with a firm opinion as to the desirability of the letter "A"

MARJORIE BERNICE McCOY JERSEY SHORE

"Marj," "Micky"

Jersey Shore High School; Two years at Albright, Pi Beta Phi; Latin Philosophical Course.

"Love comforteth like sunshine after rain."

Without a doubt it was the reputation of the "twenty-oners" which brought Marjorie from Albright to Bucknell. To be sure, "Nan" assumes his poker face whenever someone suggests that there may have been a strong influence radiating from the Senior class; and we can only be sure that Marj knew what she was about, and that we are most grateful that we can count her among our classmates. Almost daily we glimpse some new phase of her sunny and versatile nature—and studious! Some people consider her an animated Latin dictionary, from the way in which she can spout dead-an'-gone adjectives. We wish her the best o'luck along the path upon which she has already set her feet,

HAROLD CLYDE McCULLOUGH WASHINGTON

"Mac"

Bucknell Academy; Class Football (1), Glee Club, Ministerial Association; Ministerial Course.

"Our wills are ours, we know not how:
Our wills are ours, to make them Thine."

Here we have McCullough, better known as "Mac," who is one of the famous landmarks of the University. He came here in 1913 to prepare for the ministry and is still in active preparation. Mac spent three years in the "Prep," which was quite a handicap for a ministerial, but his persistent efforts were rewarded and he has come through with flying colors. In addition to his studies, he is known far and wide as the college tailor, and spends much of his time preaching in nearby churches when ministers cannot be supplied. In short, he is a worker, and it is hoped by his class that he will be successful in his life's undertaking.

FRANCIS P. McDERMOTT WOODWARD

"Mac"

Woodward High School, Kappa Sigma, Bucknell Ambulance Unit, A. E. F.; Wearer of D. S. C.; Varsity Football (1, 2, 3); Varsity Baseball (2, 3); Chairman Sophomore Banquet Committee; Jurisprudence Course.

"China needs us!"

Though short in stature, "Mac" presents as big a problem when it comes to a write-up as he does to his opponents on the gridiron or diamond. Even his friends, meaning all of us, have never been quite able to solve the mystery of how so much pep and personality, coupled with such a level head and the ability to bring results, can be centered in one man. However, his closest associates claim that the reason lies in the fact that within his five feet of height is sheltered a strength of character, a sense of justice and right, sufficient to endear him to all who come under his influence. He takes with him in his further pursuit of law, the very best wishes of all of us for the future successes which we know will be his.

JOHN DAVID McGANN HARRISBURG

"Midge," "Mac"

Harrisburg Technical High School; Phi Kappa Psi; Varsity Football Squad (1, 2, 3); Varsity Basketball Squad (1, 2); Class Basketball (1); Captain (2); Class Basketball (1); L'AGENDA Board; Artillery Officers' Training School, Fortress Monroe; Mechanical Engineering Course.

"Never do today what you can put off until tomorrow!"

Here we have one of the old landmarks of the school. Not to know him and become acquainted with his "line" is like missing part of one's education. He greets everyone with the same pleasant greeting, flavored with some home-made but popular saying that makes his presence always desirable. He is an athlete of no mean ability, and the generous assortment of "A's" we find on his report show that he is also a student of more than a passing grade. Long since, "Midge" discovered that he was not proof against the wiles of the gentler sex, but we predict that this weakness will never permit his being imposed upon. We can look for nothing but the best of success for "Mae" in whatever career he may choose.

DOROTHY CONARD MEIXELL LEWISBURG

"Dot"

Lewisburg High School, General Science Course.

"A maid demure and shy!"

Now would you think it, but this demure lassie is never happier than when dressed in men's attire! Dot is one of those Lewisburg girls who never call around at the Sem except for sewing and gym classes. She is an unassuming girl, and is very shy; due to this fact we are not all aware of the sweet characteristics she possesses. However, she is never slighted when the "A's" are given out. She is an ambitious and industrious student, and we wish her much success in the days which are to come.

CARL ADAM METZ SCRANTON

"Metz"

Technical High School, Forum, Army Headquarters, A. E. F.; Alinisterial Association; Greek Philosophical Course.

"Still holding my 'B'."

Unique indeed is the subject of this sketch we have before us. This unpretentious man from the coal dumps of Scranton is no athlete, but nevertheless he is the proud possessor of a "B"—the only one ever received at Bucknell for fussing, and almost any time of any day, he and his are seen wending their blithesome way together. It is rumored that by his will he can sway the "powers that be" at the Sem, and twist "Student Ex." around his little finger. But with all of his fussing propensities, Carl has found time to be a good student and a man among men, and we can rest assured that success will await him when he leads forth his flock to battle against the forces of perdition.

MARTIN KELLER MOHLER EPHRATA

"Doc," "Schmuck"

Ephrata High School; Kappa Sigma; Theta Delta Tau. Phi Delta Sigma, Class Baseball (1), Manager (1); Freshman Hop Committee; Sophomore Basketball; Captain Class Baseball (2); Chairman Sophomore Banquet Committee; Manager L'AGENDA; Junior Reception Committee; U. S. N. R. F.; Mechanical Engineering Society: Mechanical Engineering Course.

"All the world loves a lover!"

Here we behold a product of the land of the Pennsylvania Dutch. The little town of Ephrata realized that it needed a place in the sun, hence "Doe's" migration to Bucknell to look for the place. He has already succeeded in making his mark, this being evidenced by his numerous student activities and his scholastic aiblity. A firm exponent of "Billy's" metallurgy, his only difficulty is that he is not absolutely certain as to the meaning of the word. We are led to believe that Doe is fast becoming an expert in anesthetics, at the present time being busily engaged in an analysis of "Ether." We can but wish him all possible success, because a brilliant future lies before him.

CLARENCE BYRON MOORE REEDSVILLE

"Soupy"

Reedsville High School, Sigma Chi, Class Baseball (1); Junior Reception Committee; Chemical Engineering Society; Chemical Engineering Course.

"How I have cherished a woman."

"How's come?" That's "Soup" pursuing knowledge. He drifted in upon an unsuspecting college, from "Lumber City" and became a co-partner of "Doc" Brown. "Soup" can supply any information asked, from the depths of a chemical compound to the heights of love. "Love." did you say? Ask him about "Tommy." That's why he won't go to the Women's College. We are all with you, "Soup," and next year when you are taken in by the chemical world we wish you luck and success.

HOWARD HARRISON MOORE REYNOLDSVILLE

"Hud"

Reynoldsville High School, Sigma Chi; Bucknell S. A. T. C.; Class Football (1); Varsity Football (1, 2, 3); Class Basketball (1); Freshman Declamation Contest; General Science.

"On to Sunbury, let joy be unconfined!"

Howard H. Moore, second of the Moore family to reach our school ("Moore" to follow), hails from the quiet hamlet of Reynoldsville.

Today we know him as "Hud," and behind that innocent countenance we can see not only the gray matter which makes him the good student he is, but the fundamental qualities of a real fellow; namely, a love for wholesome fun and a wealth of geniality and natural humor which affords him a unanimous welcome to any party. His natural qualities are sure to bring him success in whatever he decides to do.

THOMAS SIMON MORGAN PATERSON, N. J.

"Cv"

Paterson High School, Lambda Chi Alpha, Class Football (1, 2). Class Track (1, 2); Varsity Track (1, 2); Cadet U. S. M. A; First Lieutenant U. S. A.; Electrical Engineering Society; Electrical Engineering Course.

"And here's another thing—"

"Cy" returned to Bucknell and entered our class this year after spending many months in the Service. His first two years were featured by the ease and swiftness with which he moved his "Trilbys" around the einder path at the foot of the Hill It is expected that before his scholastic demise, he will again don spikes and make a name for himself among the later comers to the old college. Cy is taking up Electrical Engineering, although he expects to go into the silk business after his graduation. His ability, determination, and foresight will prove strong factors in his life's work.

RUTH LILLIAN MOUNT SUMMIT, N. J.

"Ruth"

Bernardo High School, Kappa Delta, C. E. A.; Student Executive Committee (2); College Girls' Reception Committee (2); Executive Board of Girls' Athletic Association (3); Girls' Glee Club; General Science Course.

"Blue eyes and golden hair, A sunny smile and studious air "

Here it is

No one could help admiring such a combination of fun and wit after a ray of sunshine has added its brilliance to the ensemble. Dull days are never blue when Ruth is here, and work never becomes tiresome, for at the most exasperating moments, Ruth will bubble forth, and then will follow a chat which invariably cools our wrath towards Horace or whoever the cause of our troubles may be. Work never lies heavily on Ruth's shoulders, but the secret is that the sun seldom finds her asleep, for she rises with the birds and downs all her studies before breakfast.

CHE CAGENDA & NINETEEN GWENTY ONE

GEORGE BESOLD NESLINE SUNBURY

"Inmate," "Tubby"

Sunbury High School, Forum, Senate; Music, under Prof. Ericho Barili; Bucknell S. A. T. C.; Latin Philosophical Course.

"Stop tickling me."

He mutters these awe-inspiring words as he waves his arms in the air in fictitious indignation. George's "line" has a joke for every day in the week hanging to it, and harsh critics have suggested that he may be camouflaged under a huge joke himself. At any rate, he is very good natured, and optimism abounds in his make-up. As a student he has acquired a high standing, and judging from the course he has chosen, he will be very successful as he goes along life's way.

WILLIAM EDGAR NICHOLS

WILLIAMSPORT

"Ozzie," "Bill"

Williamsport High School, Lambda Chi Alpha; Bucknell S. A. T. C.; Glee Club (1, 2, 3); Band (2, 3); Electrical Engineering Society; Williamsport-Bucknell Club, Electrical Engineering Course.

"I'll take pie."

Practically every man in school knows "Ozzie," and knows him better since he popularized the phrase "I'll take pie," which will live in the history of the 1919-1920 Musical Club trips. Bill is numbered among the virtuosos who play the piano and sing, and he is far from being poor in either line. His cheery disposition and his ability to joke and take the jokes which come his way make "Ozzie" well liked by all who come in contact with him. In engineering, which he has chosen as his calling, he is certain to succeed. A man who "experiences true love in three days," should have little trouble in making his mark in the world.

ELLA BOLTON OSBOURN

LEWISBURG

"Ella B.," "B"

Lewisburg High School, Pi Beta Phi; Latin Philosophical Course.

"Those dark eyes—they set you woozy."

—Shakespeare

Ella B is our star athlete; she swings the Indian clubs like Pocohontas herself, wins all the races, stars in basketball, skates, swims and dances, and yet her lessons never suffer from these diversions. She has garnered more than the usual amount of "A's", perhaps due to the fact that no matter how cold the morning, we see Ella traveling "Hill"-ward with nothing but her own hair upon her head

She has taken of late years to spending her summer vacation in social work. For those who have not heard of her experiences in this work, she has come into contact with the élite of the Underworld, and has acquired a fearful and wonderful vocabulary, which is used with great advantage when anything goes wrong.

FRANCIS FESS REAMER

PITTSBURGH

"Wanks," "Tess"

Peabody High School, Phi Gamma Delta; Editor of Bucknellian (2); Associate Editor Bucknellian (3); L'AGENDA Staff; Debating Team; Sophomore Oratorical Contest; Cap and Dagger (2, 3); Operatic Society (2); Class Baseball (2); First Assistant Manager of Basketball; Law Club; Press Club; Debating Board, Varsity Basketball Manager (4); Central Machine Gun Officers' Training School, Camp Hancock; Jurisprudence Course.

"Good things come in small packages."

Every cloud has a silver lining, and although the war prevented him from graduating with 1920, it has proved to be 1921's good fortune. Seldom has Bucknell seen a more versatile man, for in baseball, debating, as a manager, an actor or a newspaper man, he is a continual example that one doesn't have to have brawn to have brains. His line flows as freely and rapidly as did the bullets from his pet machine gun, and a stranger coming into his room, after hearing him deliver an unusually heavy broadside, exclaimed, "What a fine tone your Victrola has!" A truer friend than "Wanks" cannot be imagined, and we all wish him unbounded success in his chosen career—the Law

RACHEL MARY REED MAPLEWOOD, N. J.

"Mary"

Maplewood High School, Alu Phi Epsilon: Latin Philosophical Course.

"Mary, Mary, you're the girl for me—"

The author, unknowingly, struck a responsive chord in all our hearts when he published this song. True, it is warbled most often at the Kappa Sigma House, but there are few of us who can help but think of you, Mary, when we sing it. We can blame no one but Mary for this, for she is quite an accomplished girl. Besides carrying a heavy course on the Hill, with "A" success, her musical ability is rapidly becoming famous. If hard work and perseverance, coupled with a sense of humor, can bring success, our Mary's will be sufficient to warrant all the songs that have been written about her or any other Mary,

CHARLES HENRY FREDERICK REICKENBERG GREAT NECK, L. I.

"Rick," "Cholly"

Great Neck High School, Lambda Chi Alpha, Class Football (1); Assistant Cheer Leader (2, 3); Mechanical Engineering Society; Mechanical Engineering Course.

"What a pair of Silk Stockings can do."

"Rick" was one of that noble band of burglars who roomed on "Fourth Floor East" during our Freshman year, and along with "Pringle" Savidge, perfected the battleery of that aggregation He has since fulfilled his early promise, and has done exemplary work as cheer-leader. With his Great Neck brogue, "Rick" soon became famous among the earnest seekers after truth which our class boasts. He does his quota of the studies, being always willing to share with the rest. The only course in which he avoids "cheeking along" is that in Practical English Composition, and the amount and variegated hue of his mail attests to his ability in this. Although taking an engineering course, Rick expects to go west after receiving his diploma, and there settle down in some peaceful pursuit where a slide rule is never seen. We all wish the highest success for him in whatever he chooses.

ALEXANDER REXFORD ROLLER PICTURE ROCKS

"Alex," "Doc"

Picture Rocks High School; Muncy Normal School, Delta Sigma, Bucknell S. A. T. C.; Class Baseball (2); Assistant Manager Varsity Basketball (3); General Science Course.

"That guiet fellow who goes to class so often!"

Such a character as we now have before our eyes is without doubt one to be noted for its strength, as we have his own word for it that he was brought up "On the Rocks." This probably accounts for his perpetually serious expression. Alex has learned from experience and hard training that the man who laughs last has the best giggle, for he will always have his little joke in the end. His one great contribution to college life is that he has proved completely that a General Science student may be actually industrious and may have some hope of being a success in life. With his nerve and determination, it is safe to predict great things of this sober looking gentleman in the future.

NELSON SAMUEL ROUNSLEY MILLERSTOWN

"Nels," "Doc"

Millerstown High School; Kingston High School; Forum, Base Hospital 34, A. E. F.; Press Club; Medical Society; General Science Course.

"Not by a tin damn sight!"

This rare combination of vocabulation and intellect first made its appearance on this terrestrial ball along the Juniata River, choosing for its youthful abode the "burg" of Millerstown; since maturity, anywhere. Always starts late but gets there in time; never knows where anything is, but has few losses; talks about everything but what he is doing; confident of his many abilities, but not conceited; all this is Nelson. Although busy with outside interests, he has a creditable scholastic record. He has a natural gift of humor, which, combined with his extensive knowledge of any subject and his many experiences, makes him the most charming personality that one can meet.

THADDEUS ANTHONY SALACZYNSKI NANTICOKE

"Sal," "Fat," "Ted"

Nanticoke High School; Class Football (1, 2); Class Baseball (1); Varsity Football Squad (1, 2); Law Club; General Science Course.

"Remember, you were a Freshman once!"

Although "Sal" entered Bucknell with the Class of 1920, we are glad to welcome him as a member of 1921. We are sorry he had to miss one year of school life, but we feel that his loss was our gain "Ted" has won a name for himself as a student, an orator and an athlete, and in general, is one of our star performers. Always conservative, ready to help a friend, and to take the part of the "underdog," he is a man whose friendship is worth cultivating. He has never been known to lose his head, and is always on the job when clear thinking is required. We are glad to have him in our midst, and all join in wishing him the greatest degree of success.

GEORGE JAY BEVIER SCHUYLER

WILLIAMSPORT "Bill," "Spud"

Williamsport High School; Phi Gamma Delta, U. S. N. R. F., Officers' Alaterial School. Puget Sound Navy Yard, Bucknellian Staff (1, 2); Assistant Editor (3); Commencement News (2); Editor-in-Chief (921 L'AGENDA; Band (1); President Bucknell University Press Club, Owl Club; General Science Course.

"My favorite flower is the mashed potato!"

Here we have the man who landed in Bucknell with a pencil in his hand, a typewriter in his trunk, and an article for the *Bucknellian* in his hip pocket. With such preparation, how could he help making positions on all of the college publications? When it comes to literary style and description, "Bill" is in his element. It is quoted on good authority that after reading "Bill's" essay on the "Consumptive Ham Sandwich," the King of England laughed so hard that he had to be swept up in a dustpan and carried off to bed. The object of this discourse is a natural fusser and a born leader of men, and we predict a bright future ahead of him on the Williamsport *Gazette*.

HOWARD CARL SHELLY HAZELTON

"Noisy," "Bishy," "Burp"

Hazelton High School; Sigma Alpha Epsilon, Bucknell S. A. T. C.; Class Football (1); Junior Reception Committee; Assistant in Shopwork; Mechanical Engineering Society; Mechanical Engineering Course.

"Work is for the worker!"

Quiet and demure is he, but Oh, Boy! How the superfluous exuberance of "Noisy's" very personality does wrap us up! In fact, we nearly tripped over it. In early life he was exposed to the temptations of the hard-coal districts of Hazelton, but we are happy to say, the hardness has not visibly affected him Known to be a man of deep thought, he frequently exhibits it in various inventions to save unnecessary expenditures of energy. It was once rumored that he lost his pin, and sooner than bother about getting it back, he purchased a new one. Starting out to be a Chemical Engineer, he soon changed because of his great love of teaching the Frosh the mysteries of patternmaking, and now fondly expects to be a Mechanical. If you wish to know a man who will give you over 90% pure friendship, get acquainted with Shelly.

HAROLD LAWSON SHIMER

MILTON

"Noisy Bill," "Lawson," "Hal"

Milton High School; Phi Gamma Delta; F. A. C. O. T. S., Camp Taylor; Sophomore Banquet Committee; Camp Zachary Taylor Club. General Science Course.

"A Silent Knight"

A man unassuming, no airs to put on, A few strong words—his worst, "Doggone," Once from us all, with never a care Held clasped in his hands with a happy air A key to the Sem.

Yet now with no one to "Beek"-on him.
He hastens to study and works like sin,
And whatever he does, he does with cheer,
For good nature and brains make the best engineer;
He has them both, and there's never a need
But to wish him good luck, for he's sure to succeed.

HERMAN DEANE SHULTZ STRAWBERRY RIDGE

"Herman"

Strawberry Ridge High School; Biological Course.

"Silence is golden!"

Herman has the reputation for being one of the most industrious boys in our class, and he certainly lives up to it, for, in order to get his work out, he lives "up the Hill." instead of commuting. He is a very quiet boy, but one can never tell, for as the old saying goes, "still water runs deep." We believe he has someone at home he is working for, because the charms of the Bucknell co-ed are to him as a closed book, which is a very bad sign. We all wish him the best of luck, and hope that he will make good in all his undertakings.

CHARLOTTE SIPLEY

LEWISBURG

"Charlotte"

Nicholson High School, Eta Sigma: Girls' Glee Club, Domestic Science Course.

"The way to a man's heart is through his stomach!"

In this demure little native of Lewisburg we find one of the best natured and best liked girls in the Women's College. She entered here with the intention of staying only two years, but the charms of the institution, and other things, have made her change her mind, and we feel lucky indeed to have her remain in our class. Whether her future will be in teaching the fundamentals of the culinary art, or in practicing them on some lucky man, we are sure she will do either in a most efficient manner, and we wish her all sorts of luck in either case.

CHELTON WINTHORF SMITH LEWISBURG

"Chel," "Smitty," "Smythe"

Milton High School; Phi Kappa Psi; Class Basketball. Captain (1); Class Bascball (1); Varsity Bascball Squad (2); Reserve Basketball (1, 2); Assistant Football Manager (3); Electrical Engineering Society; Electrical Engineering Course.

"If there is a lady in the case, All other things must seek another place."

Now, girls, clean your glasses and look pretty, for Mr. Smythe is to be presented. Those who know him claim that he has all the "Grace" of a "Swan," to say nothing of a beautiful, beaming countenance. He is a born society youth, with moving-picture-star tendencies, although he may turn out to be a chauffeur, for all the girls say that he is a "perfect duck" when in a car. This is confidential: for not going to Berwick, he found the keys to the cemetery, or rather, the Seminary. McGann asks, however, "What's the difference?" In spite of his fussing propensities, we are sure he will turn out to be the kind of an engineer that "Lindy" tells about—the model kind, you know!

DONALD SMITH FLANDERS, N. J. "Pete"

Roxbury High School; Forum; Bucknell R. O. T. C., Class Football (1); Class Basketball (1); Morris County-Bucknell Club, Assistant Manager of Tennis; Civil Engineering Course.

"Many are called, but few get up."

Behold the sleeping beauty! This is the one and only "Pete" Smith, whose mission in life is to sleep and pull a straight "A". He is passionately interested in "Simp's Physics," and has devoted a lot of his spare time specializing along the line of "Jacks." Pete's first and only accomplishment here at Bucknell was in the class scrap, when he carried his brother across the line. In spite of his inherent desire to sleep, he is a fine student, earnest and sincere, and we predict a high degree of success for him in his chosen profession.

ELLIS SARGEANT SMITH ROCHESTER, N. Y.

"Smitty"

Newark Valley, N. Y., High School; 108th Infantry, A. E. F., Class Track (1, 2); Class Football (1, 2); Varsity Scrubs (1, 2); Glee Club (2); General Science Course.

"He who works hardest finds work easiest"

"Smitty" returned to us this year after serving overseas in one of the hardest fighting outfits in the Service, and has brought back with him the spirit of work which always so fittingly made him noted. It is rumored that his efforts are due to the inspiration given by one of the opposite sex, but we will not give away any trade secrets about his affairs of the heart. From what we have seen of her, though, we will say he is a lucky dog. "Smitty's" friends, of which there are many, find him a quiet but hard worker, and will go his bail on the question of making his mark in the world.

ROSWELL OSCAR BARNETT SMITH MORRISTOWN, N. J.

"Jim," "Senator"

Morristown High School; Forum; Chemistry Assistant; "Freshman Hop" Committee; Assistant Track Manager; Morris County-Bucknell Club, Chemical Engineering Society; General Science Course.

"Yet how I have treasured a woman!"

We may as well tell the truth if we must lie to do it. When "Jim" left the mosquito-infested State, his allotment of the world remained in "One Man's Land." He was far away, but she could not be forgotten. "Senator's" first ordeal at this institution of higher learning was the night of the Pee-rade, when he was selected to east forth a line of wisdom, and was given the "Hard" subject of the "Sem Stone Steps" to orate upon. From a serious standpoint, a more sincere friend could not be desired. He is willing to do all in his power to help his friends and is a constant, ardent, and careful worker. Should he continue this course of action, a successful career lies open before him.

VERNA LOES SMITH MAHANOY CITY

Mahanoy City High School; Kappa Delta; Latin Philosophical Course.

``A curly-headed little lass, An 'A' student of her class ''

Verna is one of the quiet, pensive little lasses in our class—when you don't know her. With her roomies she is full of fun. always ready to put away her books and have a good time. In addition to her abundant good nature, she is a hard worker and is never too busy to give someone else the benefit of her time Surely, "to know our little Verna is to love her."

MARIE DOROTHY SPANGLER

MILTON

"Dot"

Milton High School; Pi Beta Phi; C. E. A., L'AGENDA Staff; Latin Philosophical Course.

"So many hearts to you are vowed,

That you could lose and never miss one."

"Well, I'll say Dot Spangler is the best dancer in school," rumbles a deep voice somewhere in the rear, and while its owner does not enter into this discussion, the subject of the conversation is well worth notice. Besides being a tripper of the light fantastic toe, her brilliant answers to perfect "posers" in the class-room are not less to be marveled at. Brilliant, elever, talented, her capacity for work is unlimited. Warning: never tell her a joke, for far from being provoked to happy laughter, her erstwhile beaming countenance becomes bathed in tears, and fearful is the devastation wrought thereon. There are exceptions to all rules, however, and "Dot" is sometimes observed to break out into the most seraphic smiles, especially in gym class, for here it is rumored that the girls, in reply to Miss Walton's "Thanks for the day, friends," the gentle creatures yell "Ray! Ray! Ray! Ray!"

KATHRYN SPOTTS

LEWISBURG

"Spottsie"

Lewisburg High School, Eta Sigma; Girls' Glee Club, Library Assistant; General Science Course.

"The eyes are the mirrors of the soul"

Everyone knows Kathryn, and everyone has a good word to say for her. As a native of Lewisburg, she came to Bueknell with the jump on the rest of us, and has kept in the lead ever since. She promises well to be one of the honor students of the class, as her school work is beyond reproach. In all kinds of social activities we find her taking an active part, and she never has been known to miss a class function. A girl of this kind, talented, bright and popular, is sure to make her mark in the world.

MARJORIE ELIZABETH SPROUT PICTURE ROCKS

"Marj," "Sprigs"

Picture Rocks High School, Delta Delta Delta; Frill and Frown, Y. W. C. A Cabinet; L'Agenda Staff; Class Poetess (1); Pan-Hellenie Society; Domestic Science Course.

"None knew her but to love her, None named her but to praise!"

Of Marge, we find, there is lots to tell, She does many things and does them well, She is competent, wise, elever and gay. Talented in cooking, so they say. Great is her loyalty, to her friends she is true, All the girls love her and know she's true blue; Cheerful and happy, with a heart full of song, Her bright smile cheers us when the world goes wrong,

IGNATIUS MARTIN STADULIS

PLYMOUTH

"Stud," "Ig"

Plymouth High School; Varsity Football (1); Class Football (1); Camp Zachary Taylor Club; Medical Society; Biological Course

"Stud" is one of the most industrious boys in our class, and has this good quality, that when he begins a task, no one can persuade him to leave it until it is finished

"Stud" hails from the region of Plymouth, where they throw hard coal at each other just for exercise. Although he didn't come over in the Mayflower, we feel that they missed something when they didn't bring him along. We all hope and feel sure that "Stud" will be prosperous in his profession, for the way in which he goes after a "stiff" or other inanimate object, proves to us that nothing will hinder him in his work.

ALFRED TENNYSON STEININGER LEWISBURG

"Tenny"

Bucknell Academy; Kappa Sigma; Class Basketball (1), Class Football (1); 100th Field Artillery, 28th Division, A. E. F.: Vice-President Law Club; Jurisprudence Course.

"He who requires much from himself and little from others, will be secure from hatred."

Nineteen hundred and twenty marks the tin anniversary of the laying of the 1910 Class Memorial and also of Tenny's affiliation with this noble institution. However, it is beginning to look as though the memorial was going to win the race, because "Tenny" will have to graduate some time. We regret to see him go, because he has been a landmark we have always been proud of. He has the distinction of being pointed at with awe by more incoming classes than even Joe Dent, because of his ancient, but respectable look of gentility. However, his long stay here does not denote lack of ability, but rather indicates his admirable determination to overcome all the "bad breaks" which seem to have haunted him. A wonderful future is predicted for him, for his lust for learning carries him along legal lines, and we may find in him the worthy successor to Jim Scarlet.

DAVID HADDON STEWARDSON JERSEY CITY, N. J.

"Stew"

Lincoln High School, Jersey City; Kappa Sigma; Phi Delta Sigma; Bucknell S. A. T. C.; Glee Club (1); Cap and Dagger (2, 3); L'Agenda Board; Y. M. C. A. Cabinet (2, 3); Medical Society; Biological Course.

"Dreamers may come, and dreamers may go, But I'll dream on forever."

Although we never hear "Stew" cheered on the athletic field, he is a prominent man in all of his college activities. He enjoys his work in biology, attacking it with such perseverance that in the near future we expect to hail him as "Doc," and seek his advice on warts, corns, and all of the other human ailments Busy as he is, he has not lost interest in the Sem, and whenever a fussing occasion presents itself, he is usually on hand—with a different girl each time. We agree with the girls in that he has a lovable character. With his talents as a student, a fusser, an actor and a general good fellow, we predict nothing but a brilliant future for him.

SELAH WOOD SUTTON

MORRISTOWN, N. J.

"Irish," "Osseous"

Morristown High School; Forum; Operatic Society; Junior Y. M. C. A. Cabinet; Sophomore Banquet Committee; Sophomore Cotillion Committee; Treasurer of Junior Class; Bucknell S. A. T. C.; Morris County-Bucknell Club. Assistant Basket ball Manager; Chemical Engineering Society; L'AGENDA Staff, Chemical Engineering Course.

"A gentleman, good friend and a student"

Upon reaching Bucknell, this worthy young man appeared very modest and dignified, saying very little and exhibiting a serious trend of thought. However, in a month or so a spark of hilarity was observed in the makeup of the youth, and now this spark has been fanned into flames. He is always ready for fun, especially if it be of an annoying nature, and his friends say that he will get his degree in trickery. Scholastically, Selah shows much interest in his work, and has developed into a hardworking, conscientious student. Should he continue this in life as he has already done in school, he will be noted for being a success and an optimist.

FRANK THOMPSON TAYLOR

TRENTON, N. J.

"Frankie"

Trenton High School, Bucknell S. A. T. C., Camp Zachary Taylor Club, Latin Philosophical Course.

"Work is my hobby."

As a Freshman, "Frankie" took his and never even groaned, which shows clearly his uncomplaining nature. To ask the reason for Taylor's coming to Bucknell would be a superfluous question. It is very obvious that he came here to build a solid foundation, and his efforts to that end have not been in vain.

"Get at it" and "Solve it" are his tools, and with them as his companions we can predict a snug berth for him in the future.

HARRY VERNON THOMAS GREENVILLE

"Tommy"

Greenville High School, Lamba Chi Alpha, Class Football (1, 2);
Bucknell Ambulanee Unit; Wearer of Croix de Guerre; Glee
Club; President Y. M. C. A.; Operatic Society, Ministerial
Association; General Science Course.

"They made me shave it off!"

Whenever there is anything to be done, "Tommy" is the man to do it. Busy as he is, he always has time to help a worthy movement. He thoroughly believes that service is the demand of the day, and there is no shirking of responsibility on his part

When the nation called for men in 1917, he responded by enlisting in the Bucknell Ambulance Unit, and now wears the Croix de Guerre for valorous conduct in France. Returning to this country, he entered Bucknell again as a "pre-med", as he believe there is a great field for service along the line of medicine. Emerson says, "Find your work and do it," and since Harry has found his, we are sure that he will become distinguished while doing it."

FRANKLIN SCHREYER TOWNSEND MILTON

"Hank," "Frankie," "Gimme"

Milton High School; Sigma Chi; Phi Delta Sigma; Varsity Basketball (1, 2), Captain (3); L'AGENDA Board, Civil Engineering Course.

"He comes up smiling."

"Frankic," the old Beareat from Milton, is one of the little rays of sunshine in our class. His winning ways have not only won him favor among the men but also made him a "favorite" at the Sem Frank has several times made the assertion that when he gets out of school he is going to publish a book entitled, "Making Love Under Difficulties." "Hank" has also made a name for himself in athletics; He is captain of our basketball team, as a star he deserves a place among the constellations. His main subject of discourse is: "Making a Home for Two,"

ELLA LaRUE UNGER SHAMOKIN

"LaRue"

Shamokin High School; Frill and Frown, Class Historian (2); Four Year Domestic Science Course.

"Sparkling eyes, pretty hair, Cheeks a-dimple, sweet and fair, This is LaRue!"

LaRue is one of those fair young lassies who are preparing for future days by a substantial course in pie and cake baking. Aside from this, she takes a prominent part in the activities of her class—hikes and parties of all kinds. Essentially a social being, her studies are never allowed to lag, and she pulls good marks with the best of them. Her smile is always winning, and she has a large circle of friends who will never forget her when recalling the good old days at Bucknell.

CHARLOTTE VOLKMAR WILLIAMSPORT

"Chic"

Williamsport High School; Kappa Delta; Sophomore Declamation Contest Prize; Latin Philosophical Course.

"Conscientious, studious, clever, Does she shirk her duty? Never!"

Chic's room is a favorite rendezvous for her "family," who find in her a good friend and companion. She is persistent in her studies, and especially in anything which embodies the imparting of knowledge to others. Whether it be vocal or otherwise, her "line," like Tennyson's "Brook," "flows on, forever" Her ready wit and facile pen will no doubt some day place her on the editorial staff of a leading magazine. (Snappy Stories, please note.)

STEPHEN JAMES WARGO MOUNT CARMEL

"Steve," "Butch," "Spike"

Nount Carmel High School; Kappa Sigma; Bucknell S. A. T. C.; Varsity Football (1, 2); Varsity Squad (3); Varsity Basketball (2); Class Basketball (1); Bucknell Gun Club; Chemical Engineering Society; Chemical Engineering Course.

"A conductor swallowed a nickel one day—"

When the Fall Term of 1917 opened up its arms, there was among the Frosh a certain man from the coal dumps of Mount Carmel present and accounted for. From the start, "Steve" won the friendship of his classmates by the putting to rout of a hazing party of wary Sophs, and since then his popularity has been increasing by leaps and bounds. Besides being an athlete of no mean ability, his natural bent seems to be in mixing the clusive chemicals in Doc. Brown's laboratory. Any game he plays is played well and to the limit of his strength, and he is sure to reflect honor and credit on his Alma Mater when he gets "Out in the Works."

ELIZABETH VAN SCOYOC WEIDNER VINELAND, N. J.

"Betty"

Vineland High School, Kappa Delta; C. E. A., Y. W. C. A. Cabinet: Girls' Glee Club, Student Executive Committee (3); Executive Board of Girls' Athletic Association; Latin Philosophical Course.

"Whatever she did was done with ease; In her alone 'twas natural to please,"

Here she is! This is our Math shark, who ever since her Freshman year has been giving Sheidy Everett, points on the solution of such problems as the differential equation of the *n*th power of P. D. Q. Betty is one of that type of "A" student to whom everybody goes for help, and is sure to receive it. At all times she is a good-natured, full-of-fun sort of girl, and ready for anything. With all her numerous good qualities, we are sure that Betty will become a success in whatever she undertakes.

VERA ISABEL WELSH EMPORIUM

"Weary"

Emporium High School; Domestic Science Course

"Quiet and unoffending!"

"Weary," contrary to her nickname, is always happy and spends a great deal of her time in stacking other people's rooms, and in playing tricks on her friends about her. She never neglects the serious side of life, and is making a brave attempt at excelling her classmates by completing four years' work in three. We are proud to have had such a girl in our class, and wish her the best of success in her domestic world.

RALPH WALDO EMERSON WILKINSON TREVERTON

"Doc," "Wilkie"

Treverton High School, Bloomsburg Normal, Scrub Football (1); Varsity Baseball, Classical Course.

"Doc" is a faithful and loyal student, never shirking a stiff subject or taking up one because of its reputation as a "snit."

At times he is called away on "business," but we doubt whether it is of much importance, as he claims that there is always a good time in it. "Wilkie" is pretty good at "tossing the cow's husband," for he comes from a place where they do that in their sleep. Taking it all in all, he is a good friend and a steady companion, and we all hope that his plans will turn out in excess of his expectations.

THOMAS STUART WILLIAMS WILKES-BARRE

"Bill," "Detective"

Keystone Academy; Sigma Alpha Epsilon, Bucknell S. A. T. C.; Class President (1); Class Football (1); Manager Class Basket-ball (1); General Science Course.

"All that I ask is love!"

Hats off, gentlemen! We have here a member of our class who is famous for many things. His chief claim to a place in the sun is the fact that he was one of "Benny" Thomas's favorite pupils at Keystone. He started life in Wilkes-Barre, but is at present occupying space in Lewisburg when he isn't busy at Kingston "Bill" was the man we selected to guide us through our Frosh year, and he accompilshed the feat in an admirable manner Since the middle of that year, he has been actively engaged in fussing a member of the Class of 1920. It is hard to predict his future on this account, but it is safe to judge from past performances that it will be a brilliant one.

WILLIAM CHARLES ARTHUR WILLMAN MOUNT CARMEL

"Kaiser," "Mr. Bucknell," "Bill," "Jean Valjean"

Alount Carmel High School, Glee Club (1, 2, 3), Football Squad (1, 2); Camp Zachary Taylor Club; Assistant Manager Football (3); Alanager Varsity Football (4); Greek Philosophical Course.

"The man with glittering hopes."

We here present "Kaiser Bill," the General Manager of the Western Hemisphere. Put him anywhere at anything, and he surely can manage to bring home the bacon. As a singer, he would make a good ventriloquist; he has the power of throwing his voice for miles and miles, and does it, too

Bill has the qualities and push behind them to climb, and ere many years we expect to find him well on his way to the top.

LEONARD F. WORTHINGTON EAGLES MERE

"Mike"

Eagles Mere High School, Sonestown High School, Forum, Class Vice-President (3); 305th Motor Supply Train, 80th Division A. E. F., Physics Assistant, Class Football (1), Electrical Engineering Society, Electrical Engineering Course.

"A student, first, last, and always."

"Mike" is a product of the grand old Keystone State, and he delights in telling everyone this fact. We are glad to welcome him to our class, after his brilliant record in the late war. He presents a mild exterior, but beneath this there is a wealth of fun waiting to erop out at the slightest provocation. His quiet manner has won for him the admiration of his fellows and the faculty as well; and judging his future accomplishments by his present ability and application, we predict for "Mike" a very successful career.

JOHN LEE YARNALL, Jr. LEWISBURG

"Jack"

Lewisburg High School, Delta Sigma; Bucknell S. A. T. C.; Chemical Engineering Society; Chemical Engineering Course. "Pardon me!"

Here we have a traveler—a traveler in Math and Chemistry, and a traveler on the 6:06 with Selinsgrove as his destination Just why he goes to Selinsgrove we are not yet able to determine, but as his form never darkens the portals of the Sem, we have our grave suspicions. When it comes to fooling around with the chemicals, "Jack" knocks them all cold, and we feel sure that when he reaches "The Works" he is sure to furnish many more stories for Doc. Brown to give lengthy lectures upon—To wish him a wonderful career is useless, because his is already assured

CHARLES ADAM ZELLER, Jr. DALTON

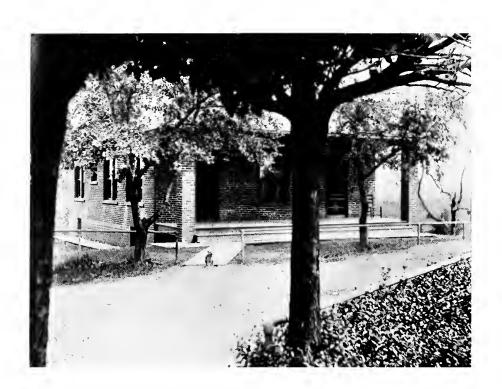

"Doc," "Cholley"

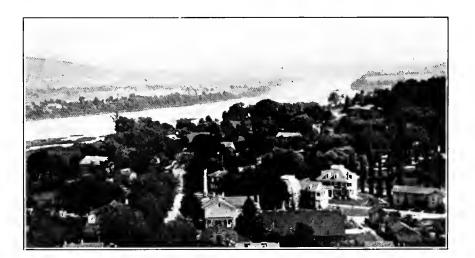

Keystone Academy; Phi Gamma Delta; Bucknell S. A. T. C.; Bucknell Gun Club (1, 2); Medical Society (1, 2), Treasurer and Business Manager (3), Operatic Society (1); Pre-Medical Course.

"Peep! Peep! Get off the track!"

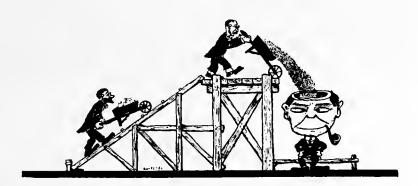

Here, in this majestic looking personage, we have the possessor of the famous "Million Dollar Smile," a self-appointed director of the D. L. & W. Railroad and the self-confessed champion red-hot-rivet-catcher of the Hog Island Shipyard. Doe's propensity for falling, whether it be from a chair or down a flight of stairs, at the slightest provocation, has won him a name for himself in the pages of the L'AGENDA Calendar. And just as this has happened, so will his knowledge of medicine and his whole-hearted devotion to his scientific studies, win him a name in the bright annals of the Medical Roll of Honor. In his case, success is already won.

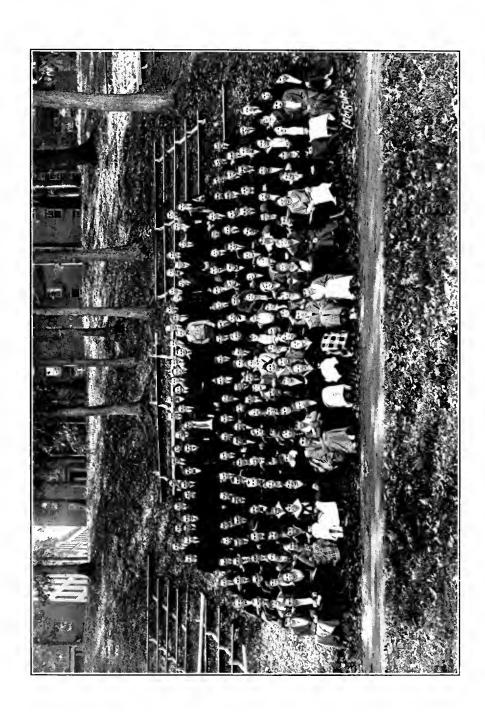

SOPHOMORES

Sophomore Class Poem

With the "green" rubbed off, we come to view As the Sophomore Class of old B. U. To the laurel we can lay no claim-We worshipped not at the shrine of Fame! We have striven merely to do our best, And we've backed Bucknell with a ready zest; You'll find we are good in the debating line, And our members in the Glee Club shine; We won the football game this year, But lost in basketball, I fear; Our girls are just brimful of "pep" And as good sports they've won their "rep"; In athletics they've played a losing game, But they came thru with a good, clear name; Our standards in the dust have never trailed— We have lost games, but as a class, not failed! There are two years of college left to us yet In which to make Bucknell proud, and not willing to forget Us—the Sophomore Class of 1922.

Sophomore Class History

PRESTIGE is synonymous to the Class of 1922. In idealizing sound ideals, sounding the depths of social maze, measuring the length of its miserable vanity, we have thus far attained that degree of success which graduating classes generally aspire to, but seldom accomplish.

Activities: Last year we emerged victorious in the annual class scrap. The basketball and baseball games were lost by small margins. The class scrap this year was won by the Freshmen, and an exciting football game resulted in a 6-0 score in our favor. The banquet which was held at Shamokin during the Winter Term, was unlike any of the previous affairs in that it was the first to be celebrated after the Eighteenth Amendment became effective, but nevertheless it was the signal for the gathering of men accustomed to radiate genial sociability as in the days of yore.

During odd moments of reflection, fond reminiscences loom vividly before us; in particular, the last general "party," the Pajama Parade, and the evening of "Prexy's" Reception. The "Life" has granted us a wonderful existence. In appreciation of what dear old Bucknell has done for us, we will ever strive to forge our way into the annals of history.

Freshman Class Poem

In the fall of nineteen-nineteen, when the war had ceased to call, And many of us now could enter the college hall, At last our dreams were realized, at last our hopes fulfilled For we were standing on the threshold, with hearts eager willed.

Although the tasks seemed hard, and although the days seemed long, With tireless perseverance we determined to go on, For we are here to study, and are sure if thus we work We shall ever be victorious, since we shall never shirk.

We think the spring of twenty-three seems very far away, But each moment brings us nearer to that season's happy day; And when thus we will have finished and go out into the strife The memories of Bucknell we shall carry all through life.

Breshman Class History

SEPTEMBER the eighteenth, nineteen hundred and nineteen, was the stepping stone of the lives of many young men and women. On this day they left their homes, sacrificing many things near and dear to them to come away to college. Some came with the realization of the hardships confronting them, while others were ignorant of the problems they had to face, but the Orange and Blue will always hold many priceless memories for them. All of the members of the Class of 1923 came to Bucknell with the hope of gaining a career for themselves and at the same time establishing a reputation for their Alma Mater, and we are proud to say that they have already accomplished their first aim.

Although the football game was lost by a few points, the class scrap and the basketball game went to the Frosh, and in addition, the girls won both basketball games played,—this year being the first that this sport has ever invaded the sacred precincts of the Sem. With such an auspicious beginning, we feel assured that our class will be one of the best and most famous that the University has ever turned out.

The Women's Student Covernment Association

The Student Government Association has been busy in furthering better co-operation between the girls and the members of the Student Executive Committee, and has been quite successful.

Two delegates, Beatrice Fetterman and Kathryn Fulford, were sent as Bucknell representatives to the Intercollegiate Student Government Conference held at Wilson College, and brought back many helpful ideas for the improvement of our own association. One of the new plans which has met with success is that of House Presidents. Other plans are being discussed, and will be inaugurated in the near future.

Girls' Glee Club

On looking over the L'AGENDA of the Class of 1905, one finds a picture of a Girls' Glee Club, of Bucknell University. Whether this organization has been lost, forgotten or deliberately exterminated we cannot say; however, in October, 1919, under the leadership of Miss Schultz, it was again organized and at the present time is doing very creditable work. We ask your support that the Glee Club of the girls, by the girls, but not for the girls, shall not again perish from Bucknell.

The String Orchestra, an organization of the violin department of the Bucknell University School of Music, entertains at various times during the school year and gives one evening concert. The orchestra has been organized for several years, its main object being ensemble playing. Excellent practice is thus afforded students of the string instruments. Miss Armstrong, as violin instructor, has been in charge of the orchestra since the date of its organization, and has presented some very effective programs.

The Y. M. C. A. at Bucknell needs no introduction. The Red Triangle stands true

blue, and tries to help every man willing to enroll, to develop mind, body and soul.

The work of the "Y" speaks for itself. Delegates were sent to the Des Moines Convention, a big smoker was held, and many "movies" and other meetings have been held since. A reading room has been opened in West College, and fills a long-felt want. The National Prohibition Association and the Interchurch Movement have both found the "Y on the job. In fact, the work of the Bucknell Y. M. C. A. may be summed up in the word "Service." But to render that service in the most efficient way, the "Y" asks of every man co-operation in word, thought, and deed.

A Banner Year for the Blue Triangle

Owing to the new budget system, 100% membership was reached, but the fine attendance at the weekly meetings and the interest manifested in the association activities, all helped to make this the most successful year in the history of the association. Conferences and Other Activities

Bucknell sent its quota to the Des Moines Convention, which will go down as one of the greatest student conventions in the world's history. Many association members grasped the opportunity of attending the annual conference at Eagles Mere, and the Student Volunteer Conference at Huntington. In all, the Blue Triangle accomplished its purpose in giving impetus and development for a well-rounded Christian life.

A Review of the Football Season

CAPTAIN HENDREN

The strongest football team that has represented Bucknell for some years was moulded the past season by Coach ''Pete'' Reynolds, former field coach of Syracuse University. Coach Reynolds was ably assisted by Assistant Coach Robert N. Waddell, '20. The showing of the entire season is due to the tireless efforts of ''Pete', and with him back again this coming year, the outlook for this sport in the fall is very bright indeed. Last year, the holding of the University of Pennsylvania to 16-0, Penn State and Syracuse, each, to 9-0, shows sufficiently the calibre of our team. In scoring, the big blue fighting machine ran up 142 points to our opponents' 62.

The season opened with a 16-0 defeat from the hands of the University of Pennsylvania. In spite of the fact that Bucknell had had only a short time of practice, the victory was gained only after a mighty battle. The first home game was with Bloomsburg Normal, and was an easy victory, 45-0. After the first half, the subs were used to good advantage by Bucknell.

The next week, the whole college moved to Penn State, and witnessed the most hotly contested and evenly matched game ever played on Beaver Field. It was only by securing the breaks that State managed to nose out a 9-0 score. Before a huge crowd, Muhlenburg submitted to a 27-0 defeat on our field. The visiting eleven was outclassed in all departments of the game. At no time was our goal line in danger, while Kostos, Mangan, McDermott, and Bowser carried the ball into the opponents' territory constantly.

Navy received its biggest surprise and scare of the season when it was unable to do better than 7-6 against our fighting eleven until the last ten minutes of play. On a blocked kick, and by means of wonderful line plunging, two touchdowns were scored in the last period, giving the Middies a 21-6 victory.

The fast but light St. Bonaventure team was the next to go down in defeat on the home grounds by a 27-0 score. The visitors put up a plucky fight, but were too light to prove dangerous. The Bucknell scrubs proved to be better than the Varsity in this game, scoring three of the four touchdowns.

In the 9-0 defeat by Syracuse the Varsity is considered to have made its best showing of the season so far as football goes. When the Syracuse *Post-Standard* called the Bucknell team "one of the gamest elevens that ever trod the gridiron," it told all.

The most exciting game of the season brought a 17-0 victory over Gettysburg. Until the last seven minutes of play, the teams were fighting to a standstill. However, at this time the Orange and Blue developed a whirlwind attack, taking the opponents off their feet by scoring a field goal and two touchdowns in this short period, done so ferociously that Gettysburg was completely overwhelmed. To sum it all up in a few words—we had the "punch!"

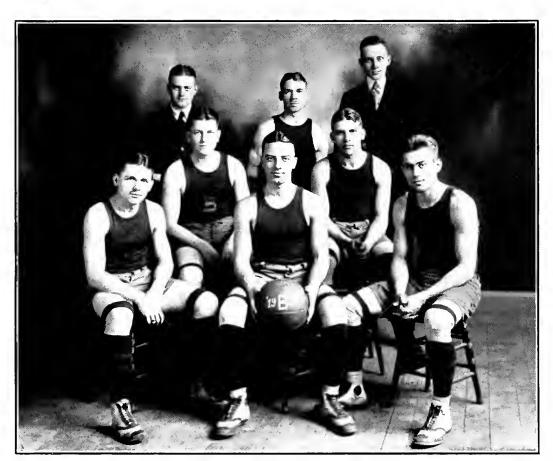

The last home game was a 27-7 massacre over Susquehanna. At no stage of the game were the visitors dangerous. The Orange and Blue backfield was too strong for our old rivals, and the second team was allowed to complete the slaughter.

The outstanding surprise of the season was the scoreless tie at Dickinson on Thanksgiving. A heavy field may account in part, but credit must be given our opponents for putting up a snappy game.

In summing up, it can be said that in all respects the season was highly successful. The defeats received were all hard-fought games against bigger teams, and the victories were all well earned. Throughout the season, the team showed the results of highly efficient coaching. It can only be hoped that, profiting by the example of the past season, next year's team may prove equally successful.

Townsend, Forward	Dorris, Center
Mathieson, Forward	Bihl, Guard
WADDELL, Forward and Guard	DEITRICH, Guard

A Review of the Baskethall Season

ITH fourteen victories and only six defeats, the basketball season of 1919-'20 stands out as one of the most successful in the history of Bucknell. Every team in our own class was defeated by a large score, and the record of not being beaten on our own floor was kept inviolate. Although several combinations of players were tried during the season before the best fighting machine could be found, it is generally conceded that the best team was made up of Waddell and Mathieson, forwards: Dorris, center; and Bihl and Deitrich, guards.

During the season, the Orange and Blue defeated such teams as Lehigh, Johns Hopkins, Dickinson, Franklin and Marshall, George Washington and Juniata, but lost to Syracuse, Cornell, Colgate, Navy and a few other teams of a similar class, all on their own floors. The Navy game was unusually good, the Middies only being able to nose out a 15-13 victory.

Waddell was the real backbone of the team, scoring most of the points, and being a dead shot on fouls. His floor work was always of the best, and he was never known to lose his head in a pinch. In more than one game, his eagle eye turned the tide of battle from defeat to victory. Mathieson was also a wonderful player, whose floor work could not be improved upon. It was almost impossible for a guard to follow him, and his timely baskets and accurate passing were of great assistance in bringing the season to a successful close.

Dorris, at center, proved to be a big man who could handle himself with remarkable speed. He was especially good on long shots from the middle of the floor, and his ability to be in the right place at the right time was a great factor in many a Bucknell victory. The two guards, Bihl and Dietrich, were exceptionally steady, and will be of great aid in future years on the floor at Tustin Gymnasium. They played hard, consistent ball at all times, and deserve credit for their quick and accurate passing.

The team itself worked as one man, no one player being a particular star in every game. It fought as only Bucknell teams, full of the spirit of their Alma Mater, know how to fight, and its few defeats bring no discredit upon the players or the University they so sturdily represented. To Coach Musser goes much credit for selecting such a team from the wealth of material on hand, and for developing it into such an efficient fighting machine.

The Freshman basketball team defeated the Sophomore team by a score of 24-22.

Girls' Athletic Board

A N innovation has taken place within the walls of the Women's College in the form of a Girls' Athletic Board. The college women decided it was high time to develop physically as well as mentally, and being blessed with a very efficient Gym instructor—Miss Walton—the task was made much easier. The energetic athletic board soon had a tennis tournament under way. Experts and beginners occupied the courts every hour of the day, and all soon showed considerable skill in wielding the racket

At the close of the tennis season, came basketball, and in this the girls entered with their whole hearts, forming interclass and interfraternity leagues. Following basketball, the girls were lined up for baseball, and the feminine home runs made many a varsity player turn green with envy and pine away from the loss of his peace of mind.

In swimming, many of them make the original Annette Kellerman take a back seat, and plans are now being made for races later in the season.

Next year, the girls are planning to give more time to athletics, as they have found that it pays. In all of their sports they have played in a clean and sportsmanlike manner, which not only reflects credit upon themselves but upon the University as well.

TENNIS SEASON OF 1919

THE 1919 Tennis season, although injured by the war, attempted to gain its pre-war stride. After elimination matches were played off, the following were picked for the team: Rorebach, '19; Lewis, '19, Speare, '20, and Lybarger, '21. Out of the three matches played, all of which took place on foreign courts, Bucknell defeated Syracuse, but lost to Cornell and Penn State. This shows that Bucknell was represented by a fast and able team, because all of the universities named above were far above our own athletic standard. The prospects for this year are excellent, as two of the last year's veterans are still in school, and there is an abundance of good material in the entering class.

Bramatis Bucknellensis

SPRING Term of 1919 finished the most successful season of dramatics, Bucknell has ever known. This was due to the leadership of Miss Edith Schillinger, and to the character of the plays and playlets presented under her direction. Miss Schillinger is no longer with us, and her absence this year was keenly felt by all those interested in dramatics. It was due to the lack of experienced coaching and that "ever forward" spirit, that so few dramatic offerings were presented during the past school year. The work was dependent mostly on the students who lacked the guidance necessary to the production of successful plays.

This year, however, carries one big thing with it; namely, the founding of a national dramatic fraternity at Bucknell University. This organization, established on the twenty-third of February, 1920 (the first mixed fraternity at Bucknell), was founded for the express purpose of bettering dramatics in college and for placing them on a higher plane among other student activities. Of course, we could not hope for the success of our ultimate object at such an early date, but we have made a very good beginning.

For the production of the first play for the college year, Frill and Frown, and Cap and Dagger united under the name of "The Combined Dramatic Clubs of Bucknell University". The union was a big success, judging from the character of the play produced. The play "Strongheart" was the vehicle selected for the first offering. The next appearance of the clubs will take place some time this term in the play "It Pays To Advertise". If the success of the last play was an omen, this play should be a top-notcher.

Following are the casts of the plays that were presented at Bucknell during the past year, the first being "College Women's Campus Day". This was quite an elaborate affair, staged under the direction of Miss Schillinger. Too much credit cannot be given to the participants in the pageant, as it was perfect in every detail.

"COMUS" (A masque by John Milton) Arranged by Helen S. Beck, 21

The Friends of the Lady			Ten Seniors

The next event of importance in the dramatic world of Bucknell was the presentation of the play "Officer 666". The play, a comedy, was presented by an all-men cast. It was a success from start to finish.

The Senior Class Play, "The Man on the Box", was presented during Commencement week, and in it were the stars of the school. It was a production well worthy of mention in these pages, and one that will be remembered for a long time by those who had the privilege of witnessing it. It was the last appearance of the Seniors, and we regret that they were not with us this year.

"THE MAN ON THE BOX" The Cast

The Cast
Lieutenant Robert Warburton CHESTER R. LEABER
Mr. Charles Henderson, his chum David C. Gall
Colonel George Annesley, a retired army officer . DEWITT K. BOTTS
Count Karloff, a Russian diplomat James R. Herman
Monsieur Pierre, the Annesley's chef Kenneth W. Oakley
Magistrate Watts, of the third precinct court David J. Martin
Miss Betty Annesley, the Colonel's daughter Madonna Harris
Miss Nancy Warburton, her chum . Margaret S. McLaughlin
Mrs. Conway, her confidante Annette H. Stahl
Cora, her maid Elizabeth F. Spyker

During the Fall of 1919, nothing was done along dramatic lines, the first play for this school year being presented on February 2d. The reason for the tardiness was largely due to the lack of a well-organized dramatic department. However, the play when presented was a big success.

"STRONGHEART"

		I he	Cast	
Dick Livingston, a Junior				Hobart Evans
Ross, a Freshman .				
Reade, a grind				
Thorne, a special .				. Francis F. Reamer
Frank Nelson, a Senior				
Billy Saunders, a Senior (1	by cou	rtesy)		. Harry R. Warfel
Soangataha, known as Str	onghea	art		. H. LeRoy Heller

Molly Livingston .				Martha Leiser
Dorothy Nelson			-	. Pauline Schenck
Buckley, head coach .				John Hendren
Farley, manager of the vis	siting t	eam		David H. Stewardson
Black Fagle a messenger				IOHN HENDREN

This concludes our dramatic work for the year of 1919-1920. The season was a most successful one, even though less work was done than in former years.

Junior Smoker Committee

Chairman, Alan R. Haus

HERBERT N. DERR

HOMER T. EATON

RUSSELL F. KELLER

ALDEN P. KING

LUKE R. BENDER

EDWIN C. COOKE

WILLARD L. COLLINS

WILLIAM W. LEWIS

The Junior Smoker was held Wednesday evening, April 7th, in the Tustin Gymnasium, and was most successful. Wrestling, boxing, music and "coffin nails" all aided in the success of the evening.

Junior Prom Committee

Chairman, THOMAS J. MANGAN

EUGENE KALLAY

George J. B. Schuyler

SELAH SUTTON

VICTOR G. CLARE

JAMES B. HUTCHISON

ROBERT HARTZ

E. L. Kohler

JOHN C. FINNEGAN

The Junior Prom of the Class of 1921 was held in the Lewisburg Armory, Friday, April 9th, with Irvin's Orchestra, of Altoona, furnishing the music. It was one of the best Proms in the history of the University, due largely to the efforts of the committee. It also had the distinction of being the first Prom ever attended by the college women.

Junior Reception Committee

Chairman, C. Franklin Brandt

RALPH W. WILKINSON

HOWARD C. SHELLY

CLARENCE B. MOORE

CHELTON W. SMITH

HILDING A. LARSON

DONALD SMITH

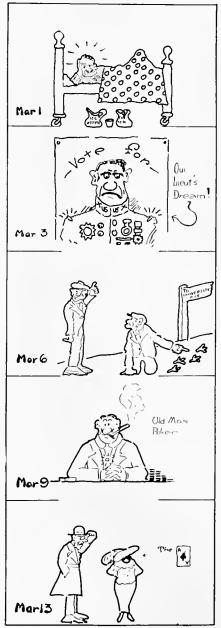

MARTIN K. MOHLER

ROBERT ANGSTADT

The Junior Reception was held Thursday evening, April 8th, in the parlors of the Women's College, and was the best event of its nature ever given at Bucknell. Dancing, cards, music and refreshments constituted the order of the evening.

Calendar

Winter Term, 1919

February

28. Glee Club at Sunbury. Sophomore Banquet at Hotel Graemar, Shamokin. All the ancient rites performed. Mohler and Heller entertain. Varsity 48; Juniata 31, at Lewisburg.

March

- Stragglers arrive from Sophomore Banquet and sleep in all day. Phi Gam dance. Kappa Sig Sem party.
- McGill goes to church, whereupon the roof is braced.
- 3. Lieut. Miller A. Johnson arrives in town from overseas.
- 4. Music Recital in Bucknell Hall. Meeting of Electrical Engineers.
- 5. R. O. T. C. ushered into Bucknell.
- 6. Sigs chase Woodpecker. Dent claims it was a red-headed one, too.
- 7. Sigma Chi 49; Forum, 20. Maneuvers of Dent and Doc. Speare furnish amusement for the spectators. S. A. E. 25; Demmies, 18.
- 8. Bucknell defeats Gettysburg 44-25, in the closing game of the season.
- S. A. E. celebrates Founders Day; so does Florin. Big Five card game "Somewhere on the Hill." Delta Sigma entertains the Semites with "A Pair of Sixes."
- 10. Dr. Hamblin speaks on the "League of Nations."
- 11. "Graveyard" Schmidt appears before Senior Council. Cap and Dagger present "Queen of Hearts" at the Orpheum.
- 12. "Doc." Hull gives Payne's dog a coat of molasses and feathers.
- 13. Glee Club scores a big hit at Shamokin, and "Polly" DeWire almost picks up a girl.
- 14. Everyone studying hard for Exams.
- 15. Exams begin. Everybody up for breakfast.
- 16. Sunday. Day of rest. Everybody restless about exams.
- 17. St. Patrick's Day. Finnegan boasts that all the Freshmen are wearing green buttons.

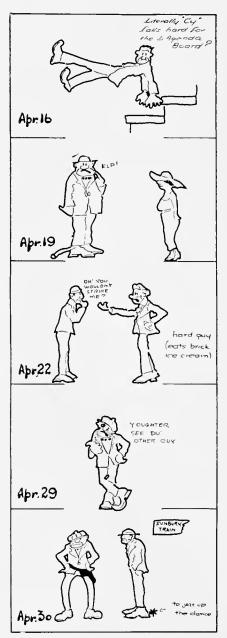

Spring Term, 1919

- 26. Official opening of Spring Term.
- 27. Advance guard of students arrive.
- 28. More students reinforce the "Punctual Few".
- 29. Shimer shocks several students severely by swearing.
- 30. Sunday. Alarm clocks muffled.
- 31. The last few stragglers drift into Lewisburg.

April

- 1. Freshmen pull off prep school pranks.
- 2. Herb springs a joke a day late.
- 3. Voris Hall cracks a smile.
- 4. Colestock tells annual joke for this day.
- 5. Saturday. One day that Masters does not flunk Physics.
- 6. Sunday. Day of prayer. We need it.
- 7. "Boots" Brandt spends afternoon pulling tacks out of telegraph pole.
- 8. Doc. Zeller up to his old tricks again. Falls off of perfectly motionless chair.
- 9. Junior Reception. "500" players have a swift time. Schuyler and Mohler elected Editor and Business Manager of the 1921 L'AGENDA.
- 10. Gym. on fire? Naw, it's only the Junior Smoker. Glee Club at Milron.
- 11. Junior Prom. Five bucks a round trip. Glee Club at the Evangelical Church.
- 12. Everybody down-town to see the parade for the boys from "Over There". Mullen washes his teeth with shaving cream. Pangburn resumes studies after a severe attack of mumps. Phi Psi Sem party.
- Sunday. Keech tries to start a poker game on the Hill. Riale sprains his ankle in Sunbury.
- 14. Electrical Engineers hold meeting. Ensign Noll gives an interesting talk.
- 15. "Jack" Rice receives a cradle, and everything that goes with it. Sophomore hazing committee entertains Sisserson, Snyder and Appleton

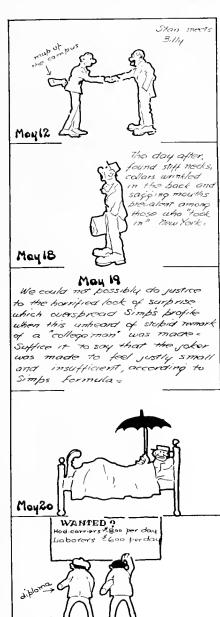

- "Cy" Haus "falls for" the L'Agenda Board. Kappa Sigma entertains Lewisburg's business men.
- 17. Forums entertain the Semites. Miss Long could hardly leave.
- 18. Good Friday. No school.
- 19. "Sheidy" Everett loses his garter.
- 20. Shimer opens the Sem fifteen minutes late.
- 21. Blue Monday. Back to work again.
- 22. War between Fraker and Sisserson. "Ephie" Heim and "Red" Wilson take canoe ride and bath in Buffalo Creek.
- 23. "Billy" Bartol weeds campus. Col. Douglas inspects the R. O. T. C.
- 24. Glee Club scores big hit at Williamsport. Prof. Burpee visits Chem. Lab.
- 25. Freshmen Declamation Contest. Cornell game postponed on account of rain.
- 26. Certain Semite goes to Milton. "Pud" Bell misses skipping date.
- 27. April showers. Who said Union County was dry?
- 28. War Trophy Train inspected by Denzil King. "Lindy" gives all his classes a cut.
- 29. Kyle reorganizes the Band. "Bobby" Hartz appears on the campus with a black eye.
- Hot spark inspires Sutton to do hundred-yard dash from foundry window. Gang departs for Sunbury.

 May
- 1. S. S. U. 525 is welcomed home. Unit presents banner and Croix de Guerre to the University. Senior Nusic Recital.
- 2. "Doc" Zeller falls over dirt pile.
- 3. Dickinson-Bucknell game at Lewisburg.
- 4. Parry has his first attack of spring fever.
- 5. Dr. Martin's Anthropology class becomes a haven of rest for the overworked student.
- b. Prof. Colestock tells a brand new joke.
- 7. Bucknell loses to Dickinson at Carlisle in the eleventh inning to the tune of 4-3.

- 8. Mount St. Mary's, 17; Bucknell, 6. Violin Recital in Bucknell Hall.
- 9. Delta Sigma entertains the Semites. Tennis Team tryout. Cap and Dagger gets new scenery.
- 10. Phi Gamma Delta dance. Kappa Sig Sem party.
- 11. S. A. E. entertain their mothers.
- 12. "Doc" Morrison crowns Townsend with an ink bottle. Three stitches required. "Stan" Kunkle pays visit to Chem. Lab.
- 13. 1919 Football schedule announced. "Loafers" Brandt and Hutchinson called before Senior Council for hanging around class memorials. "Cy" Haus rushes season by promenading the bridge with his nice white flannels.
- 14. Phi Kappa Psi House Party begins. Crowl steals Smith's girl. Cap and Dagger presents "Officer 666". Election of Athletics officers.
- 15. Bucknell defeats Mount St. Mary's in baseball, 5-1.
- 16. Sophomore Cotillion at Milton Park.
- 17. Biology class visits Penn's Cave. State-Bucknell game postponed.
- 18. Excursion to New York. Bucknell delegation takes a voyage on the Fifth Avenue Bus Line.
- 19. Team leaves for Cornell. "Polly" DeWire gets roped into court. Discussing the theory of light, Holter asks Simpson why blackberries are red when they are green.
- 20. Cornell, 7; Bucknell, 3. "Bill" Balliet rides to Sunbury, C. O. D. "Prexy's" Reception. All shoes on, Freshmen!
- 21. "Dcc" Zeller falls out of bed. Theta Delta Tau Dance.
- 22. Faculty Reception. Seniors begin to worry about jobs.

- 23. "Pud" Bell captures a dead snake.
- 24. Eta Sigma hike. Nichols attends the Policemen's Ball at Williamsport.
- 25. Schuyler puts collarbutton in church collection.
- 26. "Billy" Owens runs "Jitney Bus" for Ag. Chemistry class.

- 26. Doctor "Marengo" Speare declares that he is the answer to a maiden's prayer. Freshmen, 40; Sunbury, 33.
- 27. Rockwell's English "A" changes to English "E". Varsity, 59: Susquehanna, 18. Reading, 32; Freshmen, 24.
- 28. Theta Delta Tau open initiation. A wet reminder of the days before July 1, 1919. Bill O'Brien holds open house, but thoughtfully locks up his hair tonic. 1920 Baseball schedule announced.
- 29 Glenn Ott fails to get a leap-year proposal. No more hope for four more long, weary years.

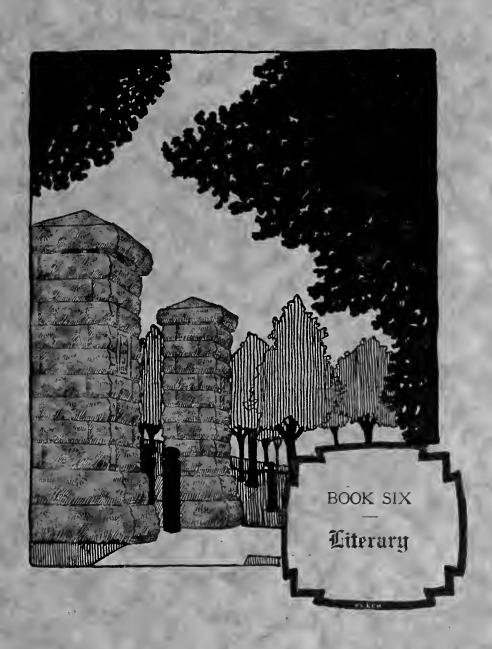

March

- 1. Dr. Hunt tenders an informal reception to Theta Delta Tau. Glee Club at Methodist Church.
- Fitting nobly illustrates the Law of Gravitation by running down the hill to chapel for the first time in his sweet young life. L'AGENDA goes to press. Board celebrates with milk-shakes, Coca-Cola, and Purity Specials.

THE END

Literary Department

To the memory of Doctor Enoch Perrine, the literary department of the 1921 L'AGENDA is dedicated. It is particularly fitting and proper that we do this, because in his period of service at Bucknell of over thirty-five years, his life was devoted to the raising of the literary standards of the University. His loss is one that will never be fully made up, but his memory will live forever in the hearts of his friends. It is the wish of the Editorial Board that this literary department should embody the same spirit of cheerfulness and good humor which characterized Doctor Perrine when he was with us, and that it also should contain work of merit. If this has been accomplished, we shall feel that the teachings of Doctor Perrine shall not have been in vain.

"Sunset and evening star,
And one clear call for me!
And may there be no moaning of the bar,
When I put out to sea.

For tho' from out our bourne of Time and Place,
The flood may bear me far,
I hope to see my Pilot, face to face,
When I have crossed the bar."

To Our Soldier Boys Play Up, Bucknell, Play A Bucknell Song

Questions and Answers

Lives there a man so small and mean Who cherishes no hope within his breast;
Yet hearing notes of hope stream
From the heart of a leafy nest?

Who watches the course of the setting sun, With its myriad colors and ruddy glow, With no vision of the pure ascension It makes each dawn from regions low?

Who watches the floweret droop and fade Beneath the touch of early frost, Forgets 'tis but a wintry grave, New life in spring for life then lost?

Who sees the toiler of the sod
Plant the tiny, dormant seeds
That, cared for by the loving hand of God,
Grow to supply all human needs?

Who looks at night at the jeweled sky, No faith or hope within his soul; At the faithful course of the stars on high, Tho' friends prove false and love grows cold?

Who watches a mother breathe her last, And hears for him her dying prayer, Can think that life forever past, And not within God's loving care?

That such could live and have his being, Clamoring for proof, yet never seeing
The resurrections amid earthly strife
That point to the richer, fuller life?

The following poem hangs in the Trophy Room of Barnes Hall, Cornell University. As it so particularly fits the Bucknell spirit, we have taken the liberty to print it in these pages. On the frame of the poem is this inscription. "To Those Who Have Tried and Failed.'

To Those Who Have Tried and Failed

Did you tackle the trouble that came your way

With a resolute heart and cheerful,

Or did you hide your face from the light of day, With a crayen soul and fearful?

Oh, a trouble is a ton, or a trouble is an ounce,

Or a trouble is what you make it

It isn't the fact that you're hurt that counts,

But only—how did you take it You are beaten to earth? Well, what of that!

Come up with a smiling face.

It's nothing against you to fall down flat,
But to lie there,—that's disgrace!
The harder you're thrown, why the higher you bounce,

Be proud of your blackened eye!

It isn't the fact that you're licked that counts, It's how did you fight, and why!

And though you be done to the death, what then?

If you battled the best you could.

If you played your part in the world of men,
Why, the Critic will call it good.
Death comes with a crawl, or it comes with a pounce,
And whether it's slow or spry.

It isn't the fact that you're dead that counts,

But only-how did you die?

EDMUND VANCE COOKE

Owed to a Boothlack

Son of Athens, cre you shine These bespattered boots of mine, Let me on your mind impress With the utmost carnestness This my warning, orthodox, Keep the polish off my socks!

Son of Athens, hear my vow, There will be one Heluva row, Take it even now from me, It will beat Thermopylae; So, if you'd escape my knocks, Keep the polish off my socks!!!

PERCY B. SHELLY, JR.

The Ladies

With appropriate apologies to R. K. As not sung at the Junior Smoker.

I've taken my fun where I found it, I've roamed and ranged in my time.

And I've had my picking of sweethearts
And four of the lot were fine.

One was a girl from Chicago.
A millionairess from Nome.

One was the daughter of my Colonel down South, And one is a girl at home

I ought to know lots about women, But taking them all along.

You never can tell till you've tried them And then you are likely wrong.

There's times when you think you mightn't.

And times when you think you might, But I always play safe and don't go too far, 'Cause then I know I'll be right.

My first girl was Barbara Kelly

I met her down at the beach I asked if she'd be my teacher, And she sure knew how to teach.

She taught me to hold a girl's hand As if I thought that she were The only girl for whom I could ever care.
And I learned about women from her.

And then I met Dorothy Farrell, Her father owned a big mine

She helped with my education When I took her out to dine She taught me to act politely,

And to be the gallant Sir And she also taught me the right way to kiss; So I learned about women from her.

My next girl was Caroline Roland, I met her at Fort Monroe. She taught me the best way to hug her. And just how far I could go.

She showed me all of the clinches,

But just so far, as it were; For she was engaged to a Major in France, But I learned about women from her.

And then I went home from the Army;
That's where I met Nancy Clyde
Twas she who taught me how to love
With all of these arts combined.

Her courses in pets and kisses. True educations they were

And how I could do them all at the same time, So I learned about women from her.

Since then I've had a dozen others,

Now I must pay for my fun.
The more that they all have taught me,
The less I have settled to one.
Here I am, sitting and thinking.

Wondering who the next one will be

So be warned by my lot (which I know you will not), And learn about women from me

I'll Take Pie

I have dined in Pullman diners,
I have eaten railroad ham,
I have viewed all kinds of menus
Since I walked this earth of sham.

But I've found naught like the Sem meals, Naught so awful to digest, Nothing like the Sem-ish dumplings For resting heavy on the chest.

There one finds the lonesome fritter, And the savory rice so fair, Whose delicate aroma Taints the pleasant noontide air.

And 'tis there that soup is offered,
Which the whole week doth review,
While all the meat you've left untouched
You'll find served up in stew.

The coffec's made of sawdust And Freshman tears, half cooked, While cheese on toast is never Forgotten to be booked.

Oh, we don't mind the Sem breakfasts, We can eat the "Shredded Hay,"

And hot cakes, cold, are wonderful With which to start the day.

[Editor's Note: The authoress continues this salubrious dissertation in the most effective style, but the kind hearted Editor could not permit his typewriter to view the remainder of this edifying discourse. Sufficient to say, all of the old, favorite standbys on the menu at the Women's College are treated in a manner which shows the proper respect for their age, condition, and regularity of appearance, yet in a most heartrending style. While perusing the copy, the Literary Editor is said to have wept oceans and oceans of bitter, scalding tears, and is reported to have turned his intended contribution to the Armenian Relief Fund over to the poor, suffering co-eds, believing that 'Charity begins at home.' We would like to print the rest of this pathetic description, but as the policy of the L'Agenda is to instruct and amuse, we find in this masterpiece a direct contradiction to said policy. However, if Herbert Hoover or any other great food expert cares to take up the matter, we will gladly furnish him with a copy of this elegy, in the hope that a publicity campaign may be started to save the poor, starving Semites.]

For Town Kids Only

At the movies, oh my darling!

When the lights are dim and low,
And the scenes in rapid motion,

Softly come and softly go;
How we wait with loving longing

For the slide that says "Good Nite"
For it's then I'll see you homeward

By the moon's romantic light.
And as on the porch we linger

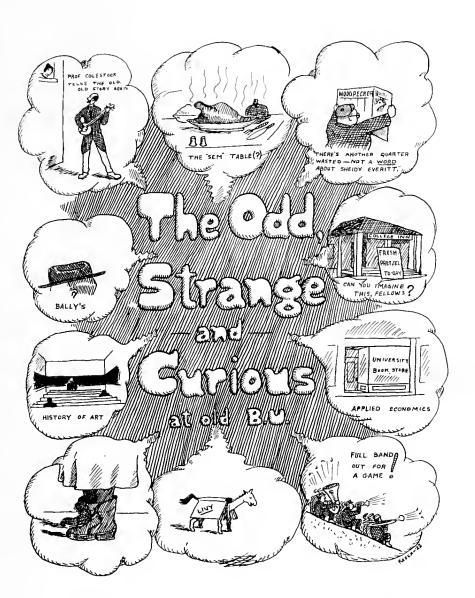

In the shadows of the lot,
I will kiss you with a fervor

That the censor censors not.

W. J. Bryan(t)

Help for the Helpless

Personally Conducted by Beatrice Fairtacks

Dear Miss Fairtacks:

Why did the boy stand on the burning deck?

DENZIL KING

Dear Denzil:

Because it was too hot for him to sit down.

Dear Beatrice:

I am a member of the Class of 1923. A few days ago I purchased a shelf of books in the library from a Senior. Now they will not allow me to remove them to my room. What shall I do?

Anxiously,

SCHOOLEY

Dear Schooley:

Sell the same shelf next year to a member of the Class of 1924.

Dear Miss Fairtacks:

One of my pupils has a sore foot and is unable to press down upon the soft pedal when the music requires it. What can I do for her?

Miss Cooper

Dear Miss Cooper:

Tie the pedal down with some rope. It will be greatly appreciated by the rest of the inhabitants of the Sem

Dear Lady:

I have taken ten lessons in the art of playing the piano with ease and dispatch from a well known correspondence school. What kind of an instrument would you advise me to buy?

HOMER T. EATON

Dear Homer:

A victrola.

Dear Beatrice:

I have been out in the sun playing tennis all spring and my nose has become unusually red. It is proving embarrassing as the teachers are looking upon me with suspicion, and all the thirsty-looking fellows want to smell my breath. What can I do to remove the color?

Bobby Hartz

Will tell you how to get rid of the color if you will tell me where you keep your oasis. Don't try that sunburn stall.

If They Had Been Written Today

Clause from Chick Florin's Will

When I die
And pass away,
I'm going to donate
To this school
A Co-ed
Who doesn't say
"I've enjoyed the evening so much,"
But instead
Bites her initials on your chin.

"Poor Kichard" Up to Date

A rose by any name would cost as much.

Early to bed and early to rise—you don't belong in college.

He who laughs last had to have the joke explained.

It's an ill wind that blows the pictures off the wall.

If at first you don't succeed—ask for a re-exam.

He who hesitates is a back number.

An empty bottle gathers no flavor.

Man proposes, but woman doesn't always accept.

A stitch in time saves embarrassing exposure.

Dear Editor:

I am much displeased with Prof. Sheidy Everett because he only gave me a "D" in Trig when I deserved an "A". I would appreciate it very much if you would print something in the L'AGENDA that is very, very cruel about him. Help a maiden in distress!

Trustfully,

Marion Ellenbogen

Dear Marion:

We will undertake anything if we are sufficiently provoked. If we remember correctly, he only gave us a "C" in Solid.

PROF. EVERETT, YOU ARE A MEAN, HORRID THING!

How's that, Marion?

And This Is Leap Year, Too

There was a young fellow named "Rickey,"
Whose fav'rites were "Honey" and "Kippy",
With the men he was fast, with the girls he was slow,
For he knew not the meaning of "Sweet Mistletoe";
So here is a token especially for him
Which we hope he will study with the aid of young Dinn,
And then in the future he'll bear it in mind—
Not to ask what it is, for he'll seek and he'll find—
"Sweet Kisses!"

By way of explanation, it is reported that during the Christmas vacation our esteemed friend and fellow classmate. Charlie Reickenburg, in company with Frosh Dinn, called at the home of two fair and beautiful maidens. During the course of the evening, he was skillfully led under a sprig of mistletoe by one of the beauteous damsels, but either from blindness or ignorance, failed to come across with the kiss due the young lady. This latter paragon of virtue, being of the "shrinking violet" nature, let the incident pass, for the time being, but later wrote the pathetic little ballad printed above, and sent it to the editor. The names of the two female conspirators have been left out of this touching story, by request.

It is only right that we should call the reader's attention to the "Fusser's Page", however, and let him see the living truth of the fact that since this little episode of the mistletoe. "Cholley" has picked up more speed. There, on page 238, we see him in all his glory, although the hat of his consort hides both faces to a certain degree. Doubtless he will receive many congratulations over his newly acquired skill, because we are told that he is now a past master in the gentle art.

Official Account of the L'Agenda Board

BACK in the dim, dark ages (about 1909), it was the custom to publish an expense account in the L'AGENDA "with a view of putting a quietus on all multitudinous prattlings and indefinite rumors". This seemed like pretty good dope to the present L'AGENDA Board, and with the aid of the Lancaster Almanac, a copy of the "Pilgrim's Progress" and Doc. Mohler's slide rule, the following account has been duly rendered and filed in the Orphans' Court and the Marriage License Bureau:

EXPENDITURES

Life insurance policy for Calendar editor	. \$ 300.00					
Staff Junior Prom expenses	. 250.68					
Printing of L'Agenda	. 5.65					
Diamond stickpin for manager (Sears and Roebuck)						
Purity Specials (including war-tax)	. 999.99					
Private secretary for manager						
Set of mahogany office furniture	. 500.07 1/4					
Rolls-Royce for editor	. 8,975.47					
Pierce-Arrow for manager	. 8,975.48					
Butler, officeboys and stenographers						
Winter season in Florida	. 500.00					
Engraving for L'AGENDA						
Food for the Cow's husband	. 358.49					
Total expenditures	. \$77,777.771/4					
Receipts						
For any allow a discontinuo	0					
For regular advertising						
From Miller Johnson, special advertising	65.87					
From sale of books	. 50.75					
From Nancarrow, Copeland, Brown, Williams, Crowl, Smith, Mathieson, Davis, Botts, for keeping pictures						
out of "Fusser's Page."	7,548.63					
From McCullough, for printing joke	25.00					
From organizations	8,854,329.02					
Total	\$?, ? ? ?, ? ? ? ?					
Deficit						

Acknowledgment

At this time, when the L'AGENDA is on the home stretch and nearing the goal of completion, the Editorial Board takes "time out" to look back over the weeks of endeavor which are necessary for such a monumental work. Realizing that without the hearty co-operation of the members of the board, and the great assistance of other friends, this Annual would have been a colossal failure, it becomes a duty to "render unto Caesar the things which are Caesar's".

To Henry M. Weber, we extend our thanks for the many hours of his precious time spent in making the drawings for the Calendar section.

To Finley Keech, we wish to show our appreciation for the works of art which he so cheerfully contributed in order to bring the 1921 L'AGENDA up to standard.

To our advertisers, we desire to show our indebtedness for their financial assistance, without which we would have been unable to issue a book of this size and quality.

To the Baker, Jones, Hausauer, Inc., publishing company, we wish to express our thanks for the many helpful suggestions given us, and for the co-operation extended to us in the printing line.

To all these, and to others as well, the board is duly grateful, and we wish to commend them to the good will of our readers as they peruse this, the L'AGENDA of the Class of 1921.

To Bucknell Chemists:

The equipping of your laboratory will be one of the most important undertakings of your business career. You cannot gamble on the results this first equipment will give you. Your volumetric glassware must be accurately graduated, your balances and weights must be carefully standardized, your chemicals must be guaranteed by the labels on them. You must feel safe in assuming that your laboratory apparatus, chemicals, and supplies are of the highest grade.

Our reputation has been built up on sixty-eight years of honest merchandising, where quality has always been our great aim. Throughout the whole scientific world E & A are the recognized distributors of dependable and accurate laboratory apparatus, chemicals and supplies.

Beautiful forms and compositions are not made by chance, nor can they ever, in any material, be made at small expense.

A composition for cheapness and not for excellence of workmanship, is the most frequent and certain cause of the rapid decay and entire destruction of arts and manufactures,

-Ruskin

OUR claim to your consideration lies in the fact that we have applied to our own business the thought contained in this quotation from one of the world's greatest thinkers and practical workers.

If there is anything attractive beyond the ordinary, in the page arrangement, cover decoration, presswork, and general harmony which distinguish our work, be assured it has not been due to chance.

We leave nothing to chance. Every line, page, volume, as it comes from our establishment, is the result of a carefully laid, conscientiously executed plan.

The thought and the supervision which our system provides is your guarantee of excellence.

If you have anything to be printed, write us; if we undertake it, we will do it well.

000
